SUPERINTENDENT'S MESSAGE

Dear Students,

On behalf of the Barbour County Board of Education, faculty, staff and administration, it is my pleasure to welcome you back to Barbour County Schools. Once again summer has passed us by and while hopefully the memories of fun are still fresh, the excitement of a new school year is here; I hope this message finds you ready to begin. As always I am looking forward to seeing all of you!

My message will be brief and I am sure has not changed since I came to Barbour County. Over the past three years and now going into my fourth and final year as superintendent, I have had the pleasure of being associated with the GREATEST students in West Virginia – YOU!! I personally cannot thank you enough for all the great things you have accomplished and the support you have given me and the vision I have for you, our school system, and for all of Barbour County. When this year is finished, I will miss all of you.

There is “book learning” and there is “real life learning”. The rate at which, and the way, the world changes forces you to have to learn both. Be proud of yesterday but do not settle for just that. Today will pass and tomorrow will not wait for you, look and move forward every chance you get. Do not be afraid of failing, there is nothing wrong in being knocked down – what matters is how you get up and that you do get up! I promise you it will only make your resolve that much stronger.

As in the past I will personally do my best to be in your classes. Again, my message is straight forward: we will provide the tools but you need to be able and willing to think on your own, you need to question, you have a voice that you need to use in an appropriate manner. I firmly believe in your own way all of you are leaders; you need to let that surface and grow. Now more than ever you cannot settle for being told, it is imperative that you want to find out the why, the what, the when, on your own. We, the teachers and staff, will be there in partnership, but you will need to step up in wanting to accept the responsibility and accountability for your own learning.

Remember – the Barbour County Schools System is **Where We Are All About:**

BETTER ENGAGEMENT – BETTER STUDENTS – FOR A BETTER FUTURE

Join us in making that happen during the 2014-2015 school year.

Sincerely,

Dr. Joe Super
Superintendent

**EDUCATIONAL PURPOSE AND ACCEPTABLE USE
OF ELECTRONIC RESOURCES, TECHNOLOGIES AND THE INTERNET**

1.0 General.

1.1. Scope. – W. Va. 126CSR41, West Virginia Board of Education (WVBE) Policy 2460, *Educational Purpose and Acceptable Use of Electronic Resources, Technologies and the Internet*, is a policy name change and update to: 1) include the new federal regulations regarding issues of child safety and acceptable use of the Internet; 2) be in compliance with Universal Service Fund for Schools and Libraries (E-rate) guidelines; 3) reinforce copyright compliance; and 4) align with other federal and state regulations.

1.2. The Barbour County Board of Education (BCBOE) supports the notion that to acquire 21st century skills, students and teachers must have access to technology tools and resources in order to access information, solve problems, communicate clearly, make informed decisions, acquire new knowledge, and construct products, reports and systems. The Board of Education also believes that teaching through the use of relevant real-world examples, applications and settings to frame academic content for students, enabling them to see the connection between their studies and the world in which they live is essential for the success of our students. Therefore, the Board of Education holds that students must be able to use technology to learn content and skills — so that they know how to learn, think critically, solve problems, use information, communicate, innovate and collaborate.

2.0 Purpose.

2.1. BCBOE Policy 7600 sets out regulations that apply to Barbour County Schools (BCS), schools, students, educators, other school personnel, parents, guardians, the BCBOE, and other users.

2.2. These regulations will assist implementation of policies at the district and school levels to meet local, state, and federal statutes and regulations pertaining to safe and acceptable use of the Internet, various digital resources and technologies, compliance with E-rate guidelines, and reinforcement of copyright compliance.

3.0 Educational Purposes.

3.1. An effective public education system develops students who are globally aware, engaged with their communities, and capable of managing their lives and careers to succeed in a digital world.

3.2. Students of all ages and educators as lifelong learners require the necessary skills and access to technology tools to take responsibility for their own learning, to be actively involved in critical thinking and problem solving, to collaborate, cooperate, and to be productive citizens. West Virginia students must develop proficiency in 21st century content, technology tools, and learning skills to succeed and prosper in life, in school, and on the job.

3.3. Technology must be interwoven with educational improvements and personalized learning to accomplish educational goals, increase student achievement and educator efficacy, and provide increased opportunities for lifelong learning.

3.4. To promote student learning, teachers must be equipped to fully integrate technology to transform instructional practice and to support student acquisition of technology skills necessary to succeed, to continue learning throughout their lifetimes, and to attain self-sufficiency.

3.5. The WVDE, BCS, and schools will use electronic resources as a powerful and compelling means for students to learn core and elective subjects and applied skills in relevant and rigorous ways to advance learning as referenced in W. Va. Code §18-2e-7 and several WVBE policies

3.6. Learning powered by technology should enable students to achieve at higher academic levels, master digital content and technologies, access and manage information, communicate effectively, think critically, solve problems, work productively as individuals and collaboratively as part of a team, acquire new knowledge, access online assessment systems, and demonstrate personal accountability, productivity, and other self-directional skills.

3.7. The use of instructional technology should provide greater student access to advanced and additional curricular offerings, including increasing student access to quality virtual courses and online distance educational tools, than could be provided efficiently through traditional on-site delivery formats.

3.8. Teachers should integrate technology resources to personalize learning, enhance instruction, implement multiple technology-based learning strategies, implement high quality digital content and assessments, and utilize digital resources, technologies, and the Internet in the classroom.

3.9. Technology will enable educators to participate in online professional development, access digital resources and platforms, utilize educational data, and deliver instruction through blended learning and other virtual options. The acceptable use of digital resources and devices is necessary to support a personalized learning landscape and other district and state educational policies.

3.10. The promotion of acceptable use in instruction and educational activities is intended to provide a safe digital environment, as well as meet Federal Communications Commission (FCC) guidelines and E-rate audits.

3.11. WVBE policy indicates that districts should adopt local policies which outline consequences for safety and acceptable use in alignment with federal and state laws, state and district policies, especially W. Va. 126CSR99, WVBE Policy 4373, Expected Behavior in Safe and Supportive Schools. BCBOE Policy 8400, Student Code of Conduct addresses this requirement.

3.11.1 Students downloading or uploading prohibited material or accessing prohibited web sites, attempting to/or succeed in logging on as system administrator, using proxy servers or software to bypass state filtering, or partaking in any form of cyber bullying will be disciplined according to the Student Code of Conduct (BCBOE Policy 8400).

3.11.2 Any student who downloads or uploads prohibited material and distributes or places the information on another computer or other storage device shall receive a ten-day, out-of school suspension and possible board of education hearing for the first offense. Additional offenses shall result in an immediate ten-day, out-of-school suspension, and the principal shall request a board of education hearing, which may result in a longer suspension or expulsion from school for up to a calendar year. Internet privileges shall also be revoked for a minimum of 90 days.

3.11.2.1 BCS understands that occasionally an inappropriate site can come up in a browser while doing an appropriate search or similar activity. The following steps are to be taken to document this occurrence so that this individual instance will not be held against the student IF THEY SELF REPORT;

3.11.2.1.1 The student will not turn off the machine, will turn off the monitor or close the lid of the laptop, and immediately report to their teacher. The student will then provide a written account of what they were researching/processing/etc. that led them into the site and provide it their teacher.

3.11.2.1.2 The teacher will go to the computer, do a print screen of the display, close the site, reboot the computer. They will then do a memo to the school principal noting the student's name, date and time of the occurrence, and their explanation of what occurred. The memo along with the screen print and the student's written account of the occurrence will then be sent to the school principal.

3.11.2.1.3 The school principal will place the documentation into a comprehensive file of such incidents.

3.11.3 School Personnel Discipline/Penalties

3.11.3.1 The Barbour County Board of Education believes that accessing prohibited sites (as defined in Section I) by students is a serious problem and the act by students carries with it an unwholesome tenor. Therefore, while the school system has set a standard for students, it must hold school employees to a much higher standard. Where there is sufficient evidence that a school employee has accessed a prohibited site on the Internet for the purpose of copying, viewing, or distributing inappropriate material, the employee may be charged with immorality, suspended without pay and dismissed under 18A-2-8.

3.11.3.2 BCS understands that occasionally an inappropriate site can come up in a browser while doing an appropriate search or similar activity. The following steps

are to be taken to document this occurrence so that this individual instance will not be held against the employee at a later date;

3.11.3.2.1 The employee will not turn off the machine, will turn off the monitor or close the lid of the laptop, and immediately report to their immediate supervisor. The employee will then provide a written account of what they were researching/processing/etc. that led them into the site and provide it their supervisor.

3.11.3.2.2 The supervisor will go to the computer, do a print screen of the display, close the site, reboot the computer. They will then do a memo to the county technology director noting the employee's name, date and time of the occurrence, and their explanation of what occurred. The memo along with the screen print and the employee's written account of the occurrence will then be sent to the technology director.

3.11.3.2.3 The county director will place the documentation into a comprehensive file of such incidents.

3.11.3.3 Employees who believe they need to access a web site to verify a student's activity on the Internet, and believe that the potential exists that one or more of the sites contain prohibited material, shall have prior authorization of the superintendent, county technology director, or building administrator before starting their investigation. If, for instructional purposes, an employee needs to access a web site that may contain prohibited material, that employee shall have prior authorization of the building administrator before accessing the web site.

4.0 Digital Citizenship.

4.1. The appropriate use of technology and digital resources promotes positive and effective digital citizenship among students and staff. Digital citizenship represents more than technology literacy. Successful, technologically fluent digital citizens live safely and civilly in an increasingly digital world and use technology responsibly. They recognize that information posted on the Internet is public and permanent and can have a long-term impact on an individual's life and career.

4.2. All users need to be part of this digital citizenry to appropriately and safely learn, work, play, and live in today's global society.

4.3. The International Society for Technology in Education (ISTE) has produced materials in the book, "*Digital Citizenship in Schools*" that describes nine elements of digital citizenship.

4.3.1 Digital Access - full electronic participation in society.

4.3.2. Digital Commerce - the buying and selling of goods online.

4.3.3. Digital Communication - the electronic exchange of information.

4.3.4. Digital Literacy - the capability to use digital technology and knowing when and how to use it.

4.3.5. Digital Etiquette - the standards of conduct expected by other digital technology users.

4.3.6. Digital Law - the legal rights and restrictions governing technology use.

4.3.7. Digital Rights and Responsibilities - the privileges and freedoms extended to all digital technology users, and the behavioral expectations the come with them.

4.3.8. Digital Health and Wellness - the elements of physical and psychological well-being related to digital technology use.

4.3.9. Digital Security - the precautions that all technology users must take to guarantee their personal safety and the security of their networks.

4.4. Digital/Network Etiquette:

4.4.1. Users are expected to abide by the generally accepted rules of digital/network etiquette. These include, but are not limited to, the following:

4.4.1.1. Be polite. Do not write or send abusive messages to others.

4.4.1.2. Use proper English and appropriate language; avoid “Netspeak.” Do not swear; do not use vulgarities or other inappropriate language.

4.4.1.3 Use extreme caution when revealing personal information, including a home address and phone number, on web sites, blogs, podcasts, videos, wikis, e-mail or as content on any other electronic medium.

4.4.1.4. Do not reveal, on any electronic medium, personal information about another individual.

4.4.1.5. Do not use the Internet in a way that would disrupt the use of the Internet by others (e.g., downloading huge files during prime time; sending mass e-mail messages; annoying other users).

4.4.1.6. Keep educational files and e-mail messages stored on servers to a minimum. (Also see section 5.6.22.)

4.4.1.7. Activate the appropriate automatic reply message and unsubscribe to listservs if account is to be unused for an extended period of time.

4.4.1.8. Only publish student pictures or names on class, school or district web sites that are part of the district/school directory information or when appropriate permission

has been obtained. (Also see W. Va. 126CSR94, WVBE Policy 4350, Procedures for the Collection, Maintenance and Disclosure of Student Data and BCBOE Policy 8900, Procedures for the Collection, Maintenance, and Disclosure of Student Data.)

4.4.1.9. Notify the appropriate school authority of any dangerous or inappropriate information or messages encountered.

4.5. Digital Security:

4.5.1. Users who identify a security problem on the system must notify a system administrator.

4.5.2. Users must not demonstrate the problem to other users.

4.5.3. Users must not use another individual's account or give their passwords to others. Unauthorized attempts to log into the system as a system administrator will result in revocation of user privileges based on state, county or school policies.

4.5.4. Any user identified as a security risk or having a history of problems with other computer systems may be denied access by the appropriate disciplinary authority. (See also section 5.6.9.)

4.5.5. The WVDE is the proprietor of a class B license of Internet Protocol (IP) addresses. These addresses include 168.216.000.001 through 168.216.255.255. All addresses are assigned, maintained and managed by the WVDE. Any unauthorized use is strictly prohibited.

5.0 Accountability and Responsibility.

5.1. The acceptable and appropriate use of telecommunications and/or access to the Internet and digital resources is an extension of the educator's responsibility in his/her classroom. Educators occupy a position of trust and stand in the place of a parent or guardian while a student is in school. (W. Va. Code § 18A-5-1(a).) Therefore, it is the educator's responsibility to ensure classroom activities focus on appropriate and specific learning goals and objectives for personalized learning when using Internet-related technologies. Student use of Internet-related or web-based applications must be authorized by the educator and parent or guardian through a county-determined procedure. It is also the educator's responsibility not to use electronic technologies in a manner that risks placing him/her in a position to abuse that trust. Even though "educators" are the ones who come in daily classroom contact with students, acceptable/appropriate uses of online resources, technologies and the Internet is a responsibility of all educational staff and employees.

5.2. The following statements delineate the responsibilities of the WVBE, WVDE, RESAs, the county board of education, individual schools, educators and other educational/service personnel for the appropriate and authorized use of technologies, digital resources and the Internet.

5.3. WVBE responsibilities, based on authority of W. Va. Code, will include approving policies advocating the following activities:

5.3.1. Students will be provided equitable access to technology.

5.3.2. Students will graduate from the public schools with proficiency in the skills and learning objectives delineated in instructional policies, especially in Policy 2520.14.

5.3.3. WVBE Policy 2520.14 content standards and objectives will be included as part of the instructional goals and objectives of all programs of study and at all grade levels.

5.3.4. The WVBE will collaborate with the higher education community to communicate complementary technology utilization initiatives and partnerships and readiness of student teachers in understanding the professional role of the educator and the position of trust.

5.3.5. Administrators and teachers will be provided professional development in the use and application of electronic resources, technologies and the Internet.

5.4. WVDE responsibilities will include carrying out the policies of the WVBE and include the following tasks/duties:

5.4.1. The WVDE provides the network system, e-mail accounts and Internet access as tools for education and administration in support of the WVBE's mission and goals.

5.4.2. The WVDE reserves the right to monitor, inspect, investigate, copy, review and store, without prior notice, information about the content and usage of any network and system files, user files, disk space utilization, applications, bandwidth utilization, document files, folders, electronic communications, e-mail, Internet access, and any and all information transmitted or received in connection with networks, e-mail use and web-based tools.

5.4.3. The WVDE and approved service provider(s) can monitor only the e-mail accounts issued to the "access.k12.wv.us" server, which is administered by WVDE and approved provider(s).

5.4.4. The WVDE will review and process appropriate applications for domain names for local servers.

5.4.5. The WVDE reserves the right to disclose any electronic message, files, media, etc., to law enforcement officials or third parties as appropriate.

5.4.6. Based upon the acceptable use and safety guidelines outlined in this document, The State Superintendent of Schools, WVDE and provider(s) system administrators will determine what appropriate use is, and their decision is final.

5.4.7. The WVDE reserves the right to enter an employee's information system files whenever there is a business need to do so.

5.4.8. Electronic filtering will be installed by the WVDE at the two points of presence (POPs) for Internet access. This will provide filtering for all public schools in a cost effective manner and with efficient management. Providing this service at the state level enables districts/schools to meet Children's Internet Protection Act (CIPA) and E-Rate guideline requirements for filtering.

5.4.9. To avoid duplication of effort at the district/school levels, the WVDE will provide a method and instructional modules that allow districts/schools to certify compliance with the new FCC regulations regarding Internet safety policies. The policies must provide for educating students about appropriate online behavior, including interacting with other individuals on social networking websites and in chat rooms and cyber bullying awareness and response. Instructional information regarding the WVDE method and curriculum content for certifying that students have been educated about appropriate online behavior can be found at <http://wvde.state.wv.us/technology/cipa-compliance.php>. This WVDE method will provide documentation that districts have met the annual E-rate compliance requirements of educating students regarding appropriate use. The districts and schools are encouraged to go beyond this basic compliance if so desired.

5.4.10. The state network will not be responsible for unauthorized financial obligations resulting from the use of, or access to, the state's computer network or the Internet.

5.4.11. The WVDE makes no warranties of any kind, whether expressed or implied, for the service being provided. The WVDE will not be responsible for any damages, including loss of data or service interruptions. The use of any information obtained via the system is at the user's own risk. WVDE is not responsible for the accuracy and quality of information obtained through the system.

5.5. RESA responsibilities include supporting the WVBE and WVDE in carrying out state and federal contracts, policies and legislation relating to electronic resources, technologies and the Internet, such as, but not limited to:

5.5.1. RESAs may support respective counties served in providing professional development to implement Policy 2520.14.

5.5.2. RESAs will provide timely and appropriate repair, telecommunications assistance, West Virginia Education Information System (WVEIS) support and other services addressed in state policies and statutes.

5.6. The Barbour County Board of Education responsibilities:

5.6.1. The BCBOE shall have a county technology team and a comprehensive technology plan that is included as part of the Five-Year Online Strategic Plan. In addition to the county technology director/contact, the technology team should be representative of areas including instruction, finance, facilities, personnel and others as designated by the county.

5.6.2. WVBE Policy 2520.14, 21st Century Learning Skills and Technology Tools Content Standards and Objectives for West Virginia Schools, shall be included in all programs of study and at all grade levels.

5.6.3. The BCBOE shall, whenever possible, make available facilities and technology to accommodate distance learning and access to virtual courses provided through the West Virginia Virtual School and approved course providers.

5.6.4. The BCBOE, in cooperation with schools, shall, to the extent practicable and as funds and other resources are available, provide students (including those enrolled in adult basic education), teachers, parents and citizens access to technology, in the public schools during non-school hours and in accordance with E-rate guidelines.

5.6.5. The BCBOE shall provide professional development in the use of technology and its application in the teaching and learning process.

5.6.6. 5.6.7. The BCBOE shall provide adequate technology personnel to implement appropriate policies and manage county/school networks to help ensure the safety of students and acceptable use of electronic resources, technologies and the Internet.

5.6.8. In accordance with W. Va. Code, school aid formula, and local funding opportunities, the BCBOE shall provide support for schools to employ Technology Integration Specialists (TIS) and Technology Systems Specialist (TSS). The role of the TIS is to implement and aid educators with technology integration and fluency. The role of the TSS is to manage/repair school local area networks and connected devices. It is highly important to have adequate technology personnel at each school to ensure the safety of students and acceptable use of electronic resources, technologies, and the Internet. It is imperative to have adequate technology personnel at the school level to implement school policies through technology integration/fluency by the TIS and manage/repair school local area networks through TSS and to ensure the safety of students and acceptable use of electronic resources, technologies and the Internet.

5.6.9. The use and administration of a network server for Internet connection within a county or school is the responsibility of the designated/approved educator(s) and administrator(s) at the location of the server. It is their responsibility to ensure that all activities and/or functions of the server involve appropriate school activities. All administrative functions and/or file maintenance to the server are the responsibility of the designated/approved educator/administrator serving that location.

5.6.10. All remote access to servers located at a county or school building and connected to a wide area network and/or the Internet is the responsibility of the administrator(s)

and/or educator(s) identified as responsible for the servers. Remote access of any kind is to be used only when specific educational goals have been identified and is not to be in direct competition with local Internet service providers. Additionally, all remotely accessed servers must not conflict with federal, state and local guidelines for appropriate Internet access.

5.6.11. Server administrators or technical contacts requesting domain names for local servers must apply to the WVDE through an application process. Those receiving a domain name must follow all guidelines detailed as part of the application process, including the adoption of a current safety and acceptable use policy.

5.6.12. The WVDE and approved service provider(s) can monitor only the e-mail accounts issued to the "access.k12.wv.us" server, which is administered by WVDE and approved provider(s). Non-"access.k12.wv.us" e-mail accounts should not be used for school/educational purposes. All liability for any non-"access.k12.wv.us" email accounts lies with the administrator(s) and/or educator(s) responsible for student utilization of alternative accounts or the administrator(s) and/or educator(s) identified as responsible for the server being used.

5.6.13. Only publish student pictures or names on class, school or district web sites that are part of the district/school directory information or when appropriate permission has been obtained. (See also WVBE Policy 4350 and BCBOE Policy 8900.)

5.6.14. Districts and schools are subject to CIPA and may not receive the E-rate discounts unless they certify that they have an Internet safety policy that includes technology protection measures. The protection measures must block or filter Internet access to pictures that are: (a) obscene; (b) child pornography; or (c) harmful to minors.

5.6.15. Before adopting/revising an Internet safety policy, the BCBOE and schools will provide reasonable notice and hold at least one public hearing or meeting to address the acceptable use policy.

5.6.16. Barbour County Schools, being subject to CIPA, is required to adopt and implement an Internet safety policy addressing: (a) access by minors to inappropriate matter on the Internet; (b) the safety and security of minors when using electronic mail, chat rooms and other forms of direct electronic communications; (c) unauthorized access, including so-called "hacking," and other unlawful activities by minors online; (d) unauthorized disclosure, use, and dissemination of personal information regarding minors; and (e) measures restricting minors' access to materials harmful to them.

The WVDE provides a method and curriculum modules that allow BCS/schools to certify compliance with this FCC regulation.

5.6.18. BCS/school equipment that is used off site is subject to the same rules as when used on site.

5.6.19. Students and staff are expected to use BCS and school-owned technology in a responsible, efficient, ethical, and legal manner in accordance with the educational mission of the state, district, and school. The use of such technologies may be restricted or revoked for inappropriate behavior or use.

5.6.20. Students and staff are encouraged to use BCS and school equipment whenever possible. Unauthorized or unacceptable use of personal technology devices by students may result in suspension or revocation of personal device privileges. These uses include, but are not limited to, the following:

5.6.20.1. Using personal devices to gain or give an advantage in a testing situation.

6.3.5.3. Using e-mail and other electronic user IDs/passwords other than one's own. Passwords are the first level of security for a user account. E-mail and system logins and accounts are to be used only by the authorized owner of the account, for authorized purposes. Students and staff are responsible for all activity on their account and must not share their account IDs and passwords.

6.3.5.4. Illegally accessing or attempting to access another person's data or personal system files or unauthorized access to other state/district/school computers, networks, and information systems.

6.3.5.5. Supplying your password and user information to any electronic request, or sharing them with others, via any other communications.

6.3.5.6. Storing passwords in a file without encryption.

6.3.5.7. Using the “remember password” feature of Internet browsers and e-mail clients.

6.3.5.8. Leaving the computer without locking the screen or logging off.

6.3.5.9. Corrupting, destroying, deleting, or manipulating system data with malicious intent.

6.3.5.10. Requesting that inappropriate material be transferred.

6.3.5.11. Violating safety and/or security measures when using e-mail, chat rooms, blogs, wikis, social networking sites, Web 2.0 tools, and other forms of electronic communications.

6.3.5.12. Hacking, cracking, vandalizing, or any other unlawful online activities.

6.3.5.13. Disclosing, using, or disseminating personal information regarding students.

6.3.5.14. Cyber bullying, hate mail, defamation, harassment of any kind, discriminatory jokes and remarks, and other unauthorized uses as referenced in BCBOE and/or WVBE policies or other policies and laws.

6.3.5.15. Personal gain, commercial solicitation, and compensation of any kind.

6.3.5.16. Any activity which results in liability or cost incurred by the district.

6.3.5.17. Downloading, installing and/or executing non-educational gaming, audio files, video files, or other applications (including shareware or freeware) without permission or approval.

6.3.5.18. Support or opposition for ballot measures, candidates, and any other political activity.

6.3.5.19. Information posted, sent, or stored online that could endanger others (e.g., bomb construction, drug manufacture, etc.).

6.3.5.20. Plagiarism or reproducing/repurposing audio/video without permission/consent.

6.3.5.21. Attaching unauthorized equipment to the district or school networks. Any such equipment may be confiscated and turned over to law enforcement officers for a potential violation of W. Va. Code §61-3C-5, Unauthorized Access to Computer Services.

6.3.5.22. Attaching unauthorized equipment or making unauthorized changes to the state backbone network. Unauthorized equipment may be confiscated and may be turned over to law enforcement officers for a potential violation of W. Va. Code § 61-3C-5, Unauthorized Access to Computer Services. Only WVDE network personnel may authorize changes which affect the state backbone network.

6.3.5.23. Vandalizing technology equipment or data. Vandalism is defined as any attempt to harm or destroy data of another user or to intentionally damage equipment or any connections that are part of the Internet. This includes, but is not limited to, uploading, downloading, or creating computer viruses. Vandalism will result in revocation of user privileges.

6.3.5.24. Uses related to or in support of illegal activities will be reported to authorities.

6.3.5.25 Any unauthorized use of electronic resources, technologies, and the Internet during instructional time.

6.4 Commitment for Acceptable Use.

6.4.1 Signed agreements are required for all employees and for all students.

6.4.2 Employee supervisors shall annually review technology acceptable use with employees under their supervision and require each employee to sign the Employee Technology Acceptable Use Agreement whenever an employee is first assigned at a school. A new signed agreement is required whenever an employee transfers to a different school. The agreements are to be kept on file by the immediate supervisor.

6.4.3 Schools shall determine a procedure for ensuring annual review of technology acceptable use with all students annually. A Student Technology Acceptable Use Agreement must be signed by the student and parent/guardian whenever a student first enrolls at a school. A new signed agreement is required whenever a student transfers or is promoted to a different school.

6.4.4 All students and employees will be required to sign new forms whenever this policy is revised by the BCBOE.

7.0 Network.

7.1. The statewide network, the county wide area networks (WANs), and school local area networks (LANs) include wired and wireless computers, peripheral equipment, routers, switches, servers, files, storage devices, e-mail, Internet content, digital tools (blogs, web sites, web mail, groups, wikis, etc.), and any other equipment which communicates via network connections. These components are utilized to provide access to electronic resources, technologies and the Internet.

7.2. The WVDE reserves the right to prioritize the use of and access to the statewide network. BCS may also prioritize local traffic within WANs and LANs consistent with WVDE guidelines.

7.3. All use of the network must support instructional and administrative purposes and be consistent with BCBOE policies, WVBE policies, WVDE guidelines, E-Rate regulations and state and federal laws.

7.4. WVDE, approved service provider, and other state agencies operate the statewide infrastructure to provide Internet access for all public schools under the jurisdiction of the WVBE. In accordance with state purchasing guidelines, filtering will be installed at the state network level at the two points of presence (POPs) for Internet access. This will provide filtering for all public schools in a cost effective manner and with efficient management. Providing this service at the state level enables BCS to meet CIPA and E-Rate guideline requirements for filtering.

7.5. BCS and/or schools may also add additional electronic filters at the local network levels. Other objectionable material may be filtered. The determination of what constitutes “other objectionable” material is a local decision.

7.6. Schools must enforce the use of the filtering or electronic technical protection measures during any use of the network and computers/devices to access the Internet.

7.7. To avoid duplication of effort at the district/school levels, the WVDE will provide a method and instructional modules that allow BCS/schools to certify compliance with the new FCC regulations regarding Internet safety policies. The policies must provide for educating students about appropriate online behavior, including interacting with other individuals on social networking websites and in chat rooms and cyber bullying awareness and response. Instructional information regarding the WVDE method and curriculum content for certifying that students have been educated about appropriate online behavior can be found at <http://wvde.state.wv.us/technology/cipa-compliance.htm>. This WVDE method will provide documentation that districts have met the annual E-rate compliance requirements of educating students regarding appropriate use.

8.0 Filtering.

8.1. Filtering software is not 100% effective. While filters make it more difficult for objectionable material to be received or accessed, filters are not a solution in themselves. Every

user must take responsibility for his or her use of the network and Internet and avoid objectionable sites.

8.2. Any attempts to defeat or bypass the state's Internet filter or conceal Internet activity are prohibited. This includes, but is not limited to, proxies, https, special ports, modifications to state browser settings and any other techniques designed to evade filtering or enable the publication of inappropriate content.

8.3. E-mail inconsistent with the educational missions of the state, BCS, or school will be considered SPAM and blocked from entering e-mail boxes.

8.4. Appropriate adult supervision of Internet use must be provided. The first line of defense in controlling access by students to inappropriate material on the Internet is deliberate and consistent monitoring of student access and use of equipment.

8.5. Staff must make a reasonable effort to become familiar with the Internet and to monitor, instruct, and assist effectively in filtering and acceptable use issues.

8.6. Appropriate filtering must be maintained to meet E-rate guidelines. (See also section 7.5.)

9.0 Copyright.

9.1. Copyright laws protect the rights of people who create intellectual property by providing the creator with exclusive rights to license, sell, or use the works. A creator owns the rights of reproduction, adaptation, distribution, public performance, public display, digital transmission and moral rights.

9.2. Downloading, copying, duplicating, and distributing software, music, sound files, movies, images, or other copyrighted materials without the specific written permission of the copyright owner is generally prohibited. However, the duplication and distribution of materials for educational purposes are permitted if and when such duplication and distribution fall within the Fair Use Doctrine of the United States Copyright Law (Title 17, United States Code <http://copyright.gov/title17>) and content is cited appropriately.

9.3. The doctrine of fair use for education has developed through court decisions over the years. It has been codified in Section 107 of the United States Copyright Law (Title 17, United States Code), and lists four factors to be considered in determining whether or not a particular use is fair:

9.3.1. The purpose and character of the use, including whether such use is of commercial nature or is for nonprofit educational purposes.

9.3.2. The nature of the copyrighted work.

9.3.3. The amount and substantiality of the portion used in relation to the copyrighted work as a whole.

9.3.4. The effect of the use upon the potential market for, or value of, the copyrighted work.

9.4. To discourage violation of copyright laws, the following compliance requirements are specified:

9.4.1. Employees and students are expected to adhere to the copyright laws.

9.4.2. Appropriate software licenses will be obtained for use in a network server system or other multi-access use.

9.4.3. Programs available through the statewide provisions of technology implementation must comply with stipulations of the various purchase agreements.

9.4.4. Illegal copies of copyrighted programs shall not be made or used on state, RESA, BCS, or school equipment. (See also section 9.2.)

9.4.5. Students are to be taught the ethical and practical problems and consequences of plagiarism and software/media piracy.

9.4.6. Employees will be provided yearly reminders of their responsibility through a county chosen procedure to adhere to and enforce the copyright laws and will be provided in-service if necessary.

9.4.7. Educators and students should perform due diligence by reviewing the Terms and Conditions, Terms of Use, End User License Agreements (EULA), Copyright, etc. prior to utilizing content from resources and software licenses to ensure that they are not violating the Terms and Conditions agreed to of said resource. While Fair Use (Section 107 of the United States Copyright Law, Title 17, United States Code) does allow for some utilization of content, Terms and Conditions may specify the use allowed that would not be defined under Fair Use. (e.g., YouTube does not permit the downloading of video content for use. While showing the video in the classroom could be claimed under Fair Use, the downloading would be prohibited under the terms and conditions and is not defined by Fair Use.)

9.5. Under federal law, employees violating the copyright laws may be subject to fines, confiscation of material, and other prosecution. Violations may also result in the employee's suspension and/or dismissal for insubordination under W. Va. Code §18A-2-8.

10.0 Web Publishing.

10.1. BCS and the WVDE recognizes the educational benefits of publishing information on the Internet by school personnel and students. They also recognize the importance of guidelines that address content, overall responsibility, potential contributors, quality, technical

standards, copyright laws, and student protection. In addressing these issues, BCS recommends that each school adopt local policies that are consistent with, but not limited to, the following web publishing guidelines:

10.1.1. "Official" BCS/school web site may be administered by the BCS/school designated authority.

10.1.2. Appropriate educational permission must be obtained for student web pages published within the West Virginia public K-12 intranet and from a public K-12 site to the Internet.

10.1.3. Helping a community organization develop a web site could be a learning experience/project for students. However, housing a community web site on a school/county server will take K-12 bandwidth is prohibited as it can violate E-rate or other regulations.

10.2. Web site content should:

10.2.1. Be appropriate, in good taste, and not harmful to any individual or group.

10.2.2. Be grammatically correct, accurately spelled, and have a pleasing appearance.

10.2.3. Follow FERPA, state, BCS, and school regulations when using student pictures and names. Parental permission should be obtained. Internet guidelines stress the importance of not publishing the last names of students. Nicknames may be used in place of the given name. Personal information, such as home address, home telephone, credit card information, mother's maiden name, and other personal information should not be published.

10.2.4. Comply with BCBOE and WVBE policies and regulations.

10.2.5. Include information such as an e-mail address of the responsible contact person, copyright, and the last date updated should be included.

10.2.6. Remain current, be accurate, and navigation through the site should be easy and user friendly.

10.2.7. Restrict business/commercial links or the acknowledgment of a business on a school/BCS web site to business partners and/or materials that are educational, provide technical support, or are germane to the philosophy of the school/county. Advertising of commercial offerings is forbidden.

10.2.8. Comply with copyright, intellectual property, state, federal (specifically COPPA and CIPA), and international law.

10.2.9. Include the permission granted statement (who, time period, etc.) for all copyrighted materials.

10.3. Consult the World Wide Web Consortium (W3C) for additional web publishing standards at <http://www.w3.org/standards/webdesign>.

10.4. The W3C Web Accessibility Initiative (WAI) develops Web accessibility guidelines. More information is available at <http://www.w3.org/WAI/intro/components.php>.

11.0 Implementation.

11.1. Barbour County Boards of Education:

11.1.1. The BCBOE will ensure implementation of this policy by adopting their own county/school policies regarding acceptable use of electronic resources, technologies and the Internet.

11.2. BCS:

11.2.1. BCS shall provide technical assistance to support schools in developing and implementing local use policies. BCS will also provide professional development support to schools in addressing acceptable use.

11.2.2. BCS shall assist schools with revisions of the Five-Year Online Strategic Plans associated with technology implementation Barbour County Technology Plan and the West Virginia State Technology Plan.

12.0 Incorporation by Reference.

12.1 A copy of the Barbour County Schools Educational Technology Plan is incorporated by reference and may be reviewed at <http://www.wvschools.com/barbourcountyschools/Plans,%20Policies%20and%20Procedures.htm>

12.2 A copy of the West Virginia Educational Technology Plan is incorporated by reference and may be reviewed at <http://wvde.state.wv.us/technology/techplan/index.php>.

12.4 Guidance procedures to address definitions, technological changes, best practices and FAQs. See: <http://wvde.state.wv.us/technology/policy2460.php>.

13.0 Severability.

Any student transferring under the provisions of this rule will not become eligible for extra-curricular activities as defined by the WVSSAC until completion of the school year in which said transfer occurs. Eligibility will begin with the succeeding fall sports season. Transfer must be completed prior to the first instructional day of the new school year. ATTENDANCE

1 Rationale and Philosophy -

- 1.1 The Barbour County Board of Education recognizes that a direct relationship exists between daily school attendance and student academic performance, graduation and good work habits. The board believes that regular attendance establishes the opportunity to meet the individual needs of students in order to help them reach their potential. Since programs of study are planned and content standards of instruction are taught daily so that each day's work builds on work previously completed, all students are expected to attend school regularly and be on time for classes. A direct relationship exists between good attendance and student academic performance, graduation and good work habits in the marketplace. The board encourages schools to implement and maintain a climate conducive to learning, encourages student responsibility and self-discipline, and promotes the development of good work habits. The board believes that parental support and cooperation is necessary to achieve regular attendance.
- 1.2 It is the intent of the Barbour County Board of Education to increase attendance by encouraging schools to:
 - 1.2.1 Create a positive school climate conducive to learning.
 - 1.2.2 Help students develop responsibility, self-discipline and good work habits.
 - 1.2.3 Develop a system enlisting parental support for regular school attendance.

2 Principles of Operation -

- 2.1 Dropouts shall be reported on the WVEIS computer system.
- 2.2 All children who are enrolled in school will be expected to attend each day that school is in session.
- 2.3 A Handicapped student's absences should be addressed in accordance with policy 2419, Regulations for the Education of Exceptional Students, Section 1.10 Home-Hospital Instruction.
- 2.4 Students who are enrolled in a private school or who are receiving home instruction in accordance with provisions of the West Virginia Code and policies of the West Virginia Board of Education are, by the nature of their instruction, exempt from attendance at public school.
- 2.5 Compulsory school enrollment shall begin with the school year in which the sixth birthday is reached prior to September 1 of such year or upon enrolling in a publicly-supported or approved private pre-kindergarten program and continue to the sixteenth birthday or for as long as the student is enrolled in a public school after the sixteenth birthday. Beginning with the 2011-2012 high school cohort class of students, compulsory school enrollment begins with the school year in which the sixth birthday is reached prior to September 1 of such year or upon enrolling in a publicly supported kindergarten program and continues to the seventeenth birthday or for as long as the student continues to be enrolled in a school system after the seventeenth birthday. A child may be removed from a pre-kindergarten

program when the principal or guardian concurs that continued attendance in such pre-kindergarten program is not in the best interest of the child. In the event that the principal, teacher and parent do not concur regarding the feasibility of the child's continued attendance in the pre-kindergarten program, the principal, following consultation with the county superintendent shall make the final determination with regard to continued attendance.

Expected Behaviors In Safe and Supportive Schools

The Barbour County Schools Board of Education supports and promotes academic, social and emotional learning in all settings. Schools must consistently and persistently work to improve student knowledge, skills and dispositions that convey our nations' core values. Dispositions are the values, commitments and ethics that influence one's behaviors toward others and affect learning, motivation and development. Dispositions are affected by beliefs and attitudes related to values such as caring, fairness, honesty, responsibility, and social justice. Ideally, the teaching and learning of these valued dispositions should be the shared responsibilities of every employee, student, parent and community member and these stakeholders should be engaged in supporting the development of these dispositions.

Together we are accountable for what we want students to KNOW, how we want them to BEHAVE and what we want them to ACCOMPLISH.

EXPECTED STUDENT DISPOSITIONS

1.0 School and Community Social Skills Standards

- 1.1 Barbour County Schools supports and promotes social and emotional learning in all settings. The social and emotional learning standards serve as a framework for school-wide student behavior expectations as determined at each school.
- 1.2 Social and emotional learning is the process through which individuals acquire the knowledge, attitudes and skills they need to recognize and manage their emotions, demonstrate caring and concern for others, establish positive relationships, make responsible decisions and handle challenging situations constructively. Socially competent students are skilled in three core areas:
- 1.2.1 **Self-awareness and Self-management** – students are able to recognize their emotions, describe their interests and values and accurately assess their strengths. They have a well-grounded sense of self-confidence and hope for the future. They are able to manage stress, control impulses and express their emotions appropriately in a wide range of situations. They can persevere in overcoming obstacles as well as set and monitor progress toward the achievement of personal and academic goals.
 - 1.2.2 **Social awareness and Interpersonal Skills** – students are able to take the perspective of and empathize with others and recognize and appreciate individual and group similarities and differences. They are able to seek out and appropriately use family, school and community resources in age appropriate ways. They can establish and maintain healthy and rewarding relationships based on cooperation. They resist inappropriate social pressure; constructively prevent, manage and resolve interpersonal conflict; and seek and provide help when needed.
 - 1.2.3 **Decision-making Skills and Responsible Behaviors** – students consider ethical standards, safety concerns, social norms, respect for others and the likely consequences of various courses of action when making decisions at school, at home and in the community. They apply these decision-making skills in academic and social situations and are motivated to contribute to the well-being of their schools and communities.
- 1.3 Social and emotional learning is addressed through various Barbour County policies as well as West Virginia Board of Education (WVBE) policies.
- 1.4 Social and emotional learning is addressed through numerous West Virginia Board of Education and Barbour County Schools policies, procedures and programs. The shaping of student behaviors is not confined to any one subject area or classroom; therefore, it is the collective responsibility of all school staff and all community partners to assume an appropriate role in teaching and supporting social and emotional learning skills.
- 1.5 In order to achieve social and emotional learning standards, Barbour County Schools will address student development holistically and relate it to real-world functioning. Culturally appropriate materials will be selected that respect individual differences while at the same time acknowledging and celebrating the cultural diversity of students within the classroom, school, community, state, nation and world.
- 1.6 The following social and emotional learning standards, objectives and example behaviors shall be the guide for schools. The example behavior categories are defined as follows:
- 1.6.1 Individual behaviors – are observable actions that students can demonstrate independently without interaction.
 - 1.6.2 Initiative interaction – are observable actions that require students to purposefully start social engagement.

**Expected Behaviors In Safe and Supportive Schools
(continued)**

- 1.6.3 Responsive interaction – are observable actions that require students to engage in reaction to social encounters.
 - 1.6.4 Work skills interactions – are observable actions that require students to demonstrate social skills and dispositions that are expected in the workplace.
- 1.7 The standards and objectives progress through the grade levels in a spiraling nature. Once the objectives from one level are mastered, students are expected to maintain them at higher grade levels as they continually demonstrate that they have integrated the valued dispositions into their personal values and actions.

2.0 Standard 1: Self-awareness and Self-management

- 2.1 The self-awareness and self-management standard promotes the development of self- esteem and identification of emotions leading to student self-efficacy to express themselves in constructive ways. Chapter 2

5.0 STUDENT RIGHTS AND RESPONSIBILITIES

- 5.1 Rights and responsibilities go hand in hand. Students in West Virginia have basic rights and responsibilities similar to those enjoyed by other citizens. These include the right to the equal protection of the laws and the right to the privileges and immunities of United States citizenship. Enjoyment of these rights is governed by due process of law.
- 5.2 School officials have control over student safety, welfare, and behavior from the time a student boards the school bus or arrives at school until the student returns home or to their designated bus stop. To meet this responsibility school officials have the right and responsibility to adopt rules and regulations for the purpose of maintaining order and discipline and creating a positive learning environment. It is a student’s responsibility to follow school rules and regulations and to cooperate with school authorities who enforce these rules and regulations.

6.0 The Right to a Thorough and Efficient Education

- 6.1 All students, regardless of race, religion, national origin, language, gender, disability, marital status, parenthood, or pregnancy have the right to an equal education opportunity. Students are required by law to attend school regularly until their seventeenth birthday; as long as they continue to be enrolled as a student after their seventeenth birthday; or until their graduation. A student who has not graduated may attend school until they are twenty-one.
- 6.2 Public schooling is tuition-free for all students. However, Barbour County Schools may charge tuition for summer school and before/after-school programs, if offered, provided that any student whose parents, in the judgment of the board, are unable to pay such tuition, may attend at a reduced charge or without charge except for post-secondary, community education, or adult preparatory programs.
- 6.3 Whatever school supplies are deemed necessary to accomplish the goals of a school system and are an integral and fundamental part of elementary and secondary education will be provided free of charge to all students, such as textbooks, paper, writing implements and computers if their use is part of the curriculum. Students may be required to purchase their own equipment, such as instruments and costumes, for performance-based classes, such as band, orchestra, choir, dance and theatre. However, students shall not be denied participation in a class because their parents/guardians cannot afford to do so. Contingency plans to accommodate students and families who do not have the financial means to make these purchases will be in place at the schools.

7.0 Student Inquiry and Expression

- 7.1 Schools may not conduct, sponsor or endorse religious activities during school time. Individual students have the right to practice their own religion in a manner that does not interfere with the orderly conduct of classes and may form student groups with a religious focus that meet after school. Students have the right to be absent from school, on a reasonable basis, for religious instruction and/or for

Expected Behaviors In Safe and Supportive Schools (continued)

participation in religious activities. An opportunity must be provided for students to make up any work missed; however, it is the student's responsibility to make up such work pursuant to the rules established by the school or county.

- 7.2 Students are entitled to exercise appropriate speech while at school. Freedom of speech includes forms of expression other than vocal, provided this activity does not materially and substantially disrupt the work and discipline of the school or impinge upon the rights of other students. Schools may limit vulgar or offensive speech inconsistent with the school's responsibility for teaching students the boundaries of socially appropriate behavior. Students' off campus conduct that might reasonably be expected to cause disruption in the school may be prohibited or disciplined. This includes blogs and social media postings created for the purpose of inviting others to indulge in disruptive and hateful conduct towards a student or staff member.
- 7.3 Students have the right not to be compelled to participate in certain types of speech, such as reciting the Pledge of Allegiance. Students who choose not to participate in these ceremonies have the responsibility to respect the rights of those who do participate and must remain respectfully silent.
- 7.4 School sponsored student publications that are a part of the curriculum are subject to teacher editorial, control and therefore student speech may be regulated in a manner reasonably related to educational purposes.

8.0 Non-curriculum Related Student Groups

- 8.1 When schools allow one or more student groups whose purpose is not directly related to any class taught at the school to meet at the school, this is referred to as a limited open forum. If a school is a limited open forum for any purpose, the school must allow religious, political, and/or philosophical group meetings as long as the meetings are voluntary, monitored by the school, and do not interfere with the conduct of school activities.

9.0 Extra-Curricular Activities

- 9.1 Students must meet all state and local attendance requirements and maintain a 2.0 grade point average in order to participate in non-academic extra-curricular activities (e.g. interscholastic athletics such as football, basketball, track or wrestling; cheerleading; student government; class officers in grades 6-12). Eligibility is determined for each semester by a student's grade point average for the previous semester. Those students participating in a GED program whose grade point average for the last semester before entering into the program was below 2.0 grade point average may become eligible if they achieve a 2.0 average or better the mid-point of the second semester (the nine week point) in the same manner as students enrolled in the regular curriculum as outlined in state policy.
- 9.2 Fees may be required to help support the cost of extra-curricular activities; however, the fees should be kept to a minimum in order to further equal opportunity for participation regardless of economic status. If fees are to be paid by a student who cannot afford those fees, school officials shall develop options that will allow the student to participate.

10.0 Privacy

- 10.1 Students have certain privacy rights regarding school records. To ensure this privacy, Barbour County Schools Policy 8900 – Procedure for the Collection, Maintenance and Disclosure of Student Data and West Virginia Board of Education Policy 4350 – Collection, Maintenance and Disclosure of Student Data provide regulations for schools to follow regarding school records. Parent(s)/guardian(s) of students under eighteen years of age are entitled by law to inspect and review their child's school records. This right applies to both custodial and non-custodial parents. Students have these same rights if they are eighteen years of age or older. A guidance counselor or other school official may be needed to assist in interpreting the information in a student's permanent record file, but their assistance is not required.

Expected Behaviors In Safe and Supportive Schools (continued)

- 10.2 If a student or parent/guardian believes that information contained in an education record is inaccurate or misleading or violates the student's privacy or other rights, the student or parent/guardian may request that the records be amended. If the school does not amend the records, a hearing may be requested to challenge the content of the records.
- 10.3 Except in certain instances, school officials may not release information from a student's records without the consent of a parent or guardian, or student if the student is eighteen years of age or older. For example, confidential medical information cannot be released without the consent of the parents or guardians or eligible students' specific written consent. However, under certain conditions, authorized persons or agencies may receive information without consent. For example, if school officials are served with a valid subpoena for student information, the parents or guardians must be provided notice prior to compliance with the subpoena in order that they may voice any objections in the venue that issued the subpoena.
- 10.4 Directory information may be released without seeking prior consent of the parents or guardians unless they refuse to waive consent at the beginning of each school year after receiving notification by the school of their statutory rights under the law.

11.0 Protection from Unreasonable Searches and Seizures and Self-Incrimination

- 11.1 Federal and state constitutions and statutes provide protection for all citizens from unreasonable searches and seizures. Although school personnel have more latitude than police officers in this regard, because they do not need search warrants, search and seizures of lockers or students by school officials must still be reasonable, based upon the information known by them at the time of the search. Personal property may be searched by those authorized where there is "reasonable suspicion" to believe that student property contains stolen articles, illegal items or other contraband as defined by law or by local board or school policy.
- 11.2 Students also have a right under federal and state constitutions not to incriminate themselves about a crime when questioned on school grounds by an individual acting in the capacity of a law enforcement official. They are entitled to be informed of their right against self-incrimination if they are in a custodial setting, in other words, they are not at liberty to terminate the interrogation and leave. Students do not have a constitutional right against self-incrimination when being questioned by school officials or PRO Officers acting under the supervision of school officials who are investigating school related misconduct.

12.0 Child Abuse Prevention

- 12.1 Students have the right to grow up without being physically or sexually abused at school, in the home or the community. W.V Code §49-6A-2 requires teachers, counselors, nurses, or other professionals who suspect that a student is being abused to report the circumstances to the West Virginia Department of Health and Human Resources. Victims of abuse may seek the advice or assistance of a teacher, counselor, nurse, or other school professional. The school professional will assist students in getting needed help to prevent the abuse from recurring.

Chapter 3

13.0 Policy Implementation

- 13.1 The School and Community Social Skills Standards previously outlined in Chapter 1 are student focused and articulate the dispositions that students in West Virginia public schools are expected to develop throughout their school career. Barbour County Schools believe that schools have a fundamental responsibility for creating the opportunity for students to master the standards with the full responsibility resting collectively with the school, students, families and communities. All entities must work collaboratively to plan, implement and evaluate a systemic approach to shaping the valued

Expected Behaviors In Safe and Supportive Schools (continued)

dispositions that students must have as they develop into active, respectful and responsible citizens. The system must include schools, families and communities in the effort to teach, support and acknowledge valued dispositions and provide appropriate and meaningful interventions for inappropriate behavior.

- 13.2 Parent, family and community involvement at early childhood, middle and adolescent levels is absolutely fundamental to an effective system of public education. Strong partnerships between homes, schools and communities are needed to ensure a quality education for all children. Parents, teachers and community members, by fostering a sense of cooperative responsibility, can reinforce one another's efforts. Parents, as their children's first and most enduring teachers, can complement their children's school learning and behavior by serving as collaborators in the educational process. Community involvement, including strong business partnerships, promotes a safe and supportive school climate/culture that connects students to a broader learning community. Home-school-community partnerships are essential.
- 13.3 In order to convey a pervasive and consistent message that the valued dispositions are a priority, all students, staff and public guests of West Virginia public schools shall behave in a manner that promotes a school climate/culture that is safe and supportive and conducive to developing our valued dispositions. Conduct expectations apply to all students, staff and public guests on school property, school owned/leased buses and vehicles, school bus stops and school sponsored events.
- 13.4 School climate/culture refers to the quality and character of school life and its responsibilities to student success and growth. School climate/culture is based on people's experience of school life and reflects norms, goals, values, interpersonal relationships, teaching, learning, leadership practices, and organizational structures. A sustainable, positive school climate/culture fosters youth development and learning necessary for a productive, contributing and satisfying life in a democratic society. This climate/culture includes norms, values and expectations that support people feeling socially, emotionally, intellectually and physically safe, and students and staff are engaged and respected. Students, families and educators work together to develop and contribute to a shared school vision. Educators must model and nurture an attitude that emphasizes the benefits and satisfaction from learning. Each person contributes to the operations of the school and the care of the physical, social, and emotional environment.
- 13.5 School climate/culture and procedures that support the development of positive school climate/culture are addressed through West Virginia Code, West Virginia Board of Education policies as well as Barbour County Schools policies.
- 13.6 School climate/culture is also addressed in various county board of education policies, procedures and programs. The shaping of student behaviors is not confined to any one school personnel group or program; therefore, it is the collective responsibility of all school staff and all community partners to assume an appropriate role in shaping behavior and creating safe and supportive schools.

14.0 Responsibilities of County Boards of Education

- 14.1 Barbour County Board of Education policies include safeguards to protect the safe and supportive environment of the school. These safeguards shall include but not be limited to:
- 14.1.1 The responsibility of school administration to implement provisions of this policy with specific regard to education, communication and enforcement provisions;
- 14.1.2 Clear procedures for identification, intervention and referral of students with behavioral and substance abuse issues;
No school nor any board of education property or school or county publication may be used for the advertisement of any tobacco or alcohol product.
- 14.1.3 In accordance with WVBE Policy 4321.1 – Standards for School Nutrition, Barbour County Schools will minimize marketing other foods and beverages in the high school setting by locating their distribution in low student traffic areas and by ensuring that the exterior of

- vending machines does not depict commercial logos of products or suggest that the consumption of vended items conveys a health or social benefit.
- 14.1.4 Groups using school facilities shall sign agreements with the Barbour County Board of Education agreeing to comply with the environmental safeguards set forth in policy; and
- 14.1.5 Assurance that students, parents and spectators will be informed by public address systems that this policy remains in force on evenings, weekends and any other time that school is not in session.
- 14.2 Partnership Development: Barbour County Schools encourages partnerships with county agencies as well as organizational partnerships for the purpose of providing schools with additional supports and resources to shape behaviors in safe and supportive schools. These partnerships may be both formal and informal.
- 14.3 Formal partnerships with community service agencies (i.e. law enforcement, behavioral healthcare providers) are essential to successful implementation of this policy. Specific attention will be given to the development of formal agreements and protocols that ensure coordination between agencies and high quality service delivery to students and their families. Memoranda of understanding and/or contracts are necessary whenever partner organization representatives interact with students on school property, during the school day or on behalf of the school system. These formal agreements should clearly articulate the types of student interaction that may occur, the roles and responsibilities of all parties involved, procedural operations and resource sharing (i.e. funding, space, staff, data).
- 14.4 Informal partnerships may be short or long-term commitments that may or may not require written agreements. These partnerships usually involve collaborative groups that form around common mission and goals (i.e., anti-drug coalitions, tobacco control coalitions) to coordinate events, initiatives, resource development/dissemination, service delivery, local partnership development and/or professional development. They do not require formal agency agreements.
- 14.5 Policy Dissemination and Training: To ensure understanding of the Barbour County Schools policy for Expected Behaviors in Safe and Supportive Schools, an awareness campaign for students, staff, and parents/guardians will be conducted,
- 14.5.1 All schools will provide appropriate policy training to students and school staff.
- 14.5.2 The county board of education shall annually review their policy for compliance with federal and state law and WVBE policy.
- 14.5.3 The Barbour County Board of Education policy on Expected Behaviors in Safe and Supportive Schools will be made readily available to the public in written and electronic format at <http://www.wvschools.com/barbourcountyschools/>
- 14.6 Implementation Plan: Barbour County Schools shall address within the Student Support Goal of their strategic plan objectives for policy implementation that ensures each school incorporates the following:
- 14.6.1 Use of pro-active strategies to develop and support positive behavior in students;
- 14.6.2 Application of data-driven continuous school climate/culture improvement activities that reflect the particular needs of students and staff members to study, learn and work in a positive school climate/culture; and
- 14.6.3 Application of appropriate and consistent interventions for all forms of inappropriate behaviors.
- 14.7 To the maximum extent possible, the implementation plan shall be developed collaboratively with input from all stakeholders including, but not limited to parents, business leaders, community organizations and state and local agencies. The plan should articulate and incorporate the partnership supports and resources that are available to schools through the county's formal and informal partnership agreements.
- 14.8 Evaluation of Effectiveness: The Barbour County Schools Board of Education shall annually review data related to this policy that shall include:

Expected Behaviors In Safe and Supportive Schools
(continued)

- 14.8.1 summary data for incidents of inappropriate behavior and intervention responses to incidents;
- 14.8.2 required LSIC reports;

Chapter 4

16.0 Inappropriate Behavior and Meaningful Interventions and Consequences

- 16.1 The purpose of these regulations is to provide schools with policy that creates and ensures an orderly and safe environment that is conducive to learning. This policy requires that all schools respond immediately and consistently to any behavior that disrupts the learning environment in a manner that effectively deters future incidents and affirms respect for individuals. Inappropriate behaviors include but are not limited to incidents of harassment, intimidation, bullying, substance abuse and/or violence. The intent is for students to learn and exhibit appropriate behavior. All interventions and consequences are in effect on all school property and at all school sanctioned events, including extracurricular activities. Barbour County Schools, with support from the WVDE and RESAs, will implement proactive, preventative, and responsive programs, outline investigatory and reporting procedures, and delineate meaningful interventions and consequences in response to inappropriate behavior.
- 16.2 This policy classifies inappropriate student behavior in four levels:
- 16.2.1 Level 1: Minimally Disruptive Behaviors- Disrupts the educational process and the orderly operations of the school but do not pose direct danger to self or others.
 - 16.2.2 Level 2: Disruptive and Potentially Harmful Behaviors- Disrupts the educational process and/or pose potential harm or danger to self and/or others. The behavior is committed willfully but not in a manner that is intended maliciously to cause harm or danger to self and/or others.
 - 16.2.3 Level 3: Imminently Dangerous, Illegal and/or Aggressive Behaviors- Acts are willfully committed and are known to be illegal and/or harmful to people and/or property.
 - 16.2.4 Level 4: Safe School Act Behaviors- Are consistent with those addressed in West Virginia Code §18A-5-1a (a) and (b). The following Level 4 behavior definitions are aligned with West Virginia Code §§61-6-17, 61-6-24, and 18A-5-1, and in the Gun-Free Schools Act of 1994. These laws require that the principal, superintendent and county board address Level 4 behaviors in a specific manner as outlined in West Virginia Code §18A-5-1a.
- 16.3 Barbour County Schools policy identifies appropriate and meaningful interventions and consequences that include, but are not limited to, examples provided in this policy. It is not a requirement that all schools offer every intervention and consequence listed in this policy. School administrators and staff are encouraged to exhaust all available school and community resources to provide appropriate school-based intervention strategies designed to keep students in school and engaged in instruction.
- 16.4 Out-of-school suspension strategies should be used sparingly and shall never deny a student access to instructional material and information necessary to maintain their academic progress. Out-of-school suspension is not a recommended consequence or intervention for Level 1 behaviors, however, the determination of interventions and consequences is at the discretion of the school administrator for levels 1,2, and 3. West Virginia Code requires that the principal shall suspend a student who commits

Expected Behaviors In Safe and Supportive Schools
(continued)

a behavior classified as Level 4 in this policy. Level 3 and 4 behaviors are to be referred directly to the appropriate administrator because of the serious and/or unlawful nature of the misconduct.

- 16.5 In order to create consistency among all schools in the application of out-of-school suspension and expulsion as they relate to inter-scholastic extracurricular activities, any student suspended or expelled from school is also suspended from extracurricular activities for the duration of the out-of-school suspension or expulsion.
- 16.6 When administering interventions and consequences, it is required to determine if a student warrants protection under the IDEA, WVDE Policy 2419 and or Section 504.

- 28.3 When any student is to be interviewed in connection with an investigation pursuant to a Level 3 or 4 inappropriate behavior, a reasonable effort shall be made to contact the student's parent, custodian or guardian and invite them to be present during such interview, provided such parental notification does not compromise overall school/student safety. Any student excluded shall be placed under the control of the principal of the school or a designee. The excluded student may be admitted to the classroom or school bus only when the principal, or a designee, provides written certification to the teacher that the student may be readmitted and specifies the specific type of disciplinary action, if any, that was taken. If the principal finds that disciplinary action is warranted, he or she shall provide written and, if possible, telephonic notice of the action to the parent(s), guardian(s) or custodian(s). When a student is excluded from a classroom or a school bus two times in one semester, and after exhausting all reasonable methods of classroom discipline provided in the school discipline plan, the student may be readmitted to the classroom or the school bus only after the principal, teacher and, if possible, the parent(s), guardian(s) or custodian(s) of the student have held a conference to discuss the student's disruptive behavior patterns, and the teacher and the principal agree on a course of discipline for the student and inform the parent(s), guardian(s) or custodian(s) of the course of action. Thereafter, if the student's disruptive behavior persists, upon the teacher's request, the principal may, to the extent feasible, transfer the student to another setting.

30.2 Bus drivers must follow the guidelines outlined in WVBE Policy [4336 – West Virginia School Bus Transportation Policy and Procedures Manual](#). When the bus driver excludes a student from the school bus, the driver shall notify the student and the student's principal. The principal/designee shall notify the student's parent/guardian. All students shall be transported until the parent/guardian has been properly notified of the exclusion. The principal/designee shall notify the parent/guardian when their child may resume riding the bus. 30.3 Suspension: The purpose of suspension is to protect the student body, school personnel and property, the educational environment, and the orderly process of the school. Suspension is considered a temporary solution to inappropriate behavior until the problem that caused the suspension is corrected. The length of a suspension should be short, usually one (1) to three (3) school days, but may extend to ten (10) school days.

- 30.4 Suspension typically takes one of two forms:
- 30.4.1 In-School Suspension: Instances in which a student is temporarily removed from his/her classroom(s) for disciplinary purposes but remains under the direct supervision of school personnel and continues to receive instructional support. Direct supervision means school personnel are physically in the same location as students under their supervision. Settings may include other locations within the school building or removal to another school, such as an alternative school, provided the student remains in direct supervision of school personnel.
- 30.4.2 Out-of-School Suspension: Instances in which a student is temporarily removed from his/her school for disciplinary purposes to another setting pursuant to [W. Va. Code §18A-5-1a](#) (e.g., home, community setting). This includes both removals in which no IEP services are provided because the removal is 10 days or less as well as removals in which the student continues to receive services according to his/her IEP. The student is not under direct supervision of school personnel as defined under in-school suspension.
- 30.5 A student is entitled to an informal hearing when faced with an out-of-school suspension of ten (10) days or less. At this hearing, the principal must explain why the student is being suspended, and the student must be given the opportunity to present reasons why s/he should not be suspended. However, a student whose conduct is detrimental to the safety of the school may be suspended immediately and a hearing held as soon as practical after the suspension. Other procedures the school must follow when dealing with out-of-school suspensions are outlined in West Virginia Code [§§18A-5-1 and 18A-5-1a](#) and include:
- 30.5.1 A good faith effort shall be made to verbally notify the parent(s)/guardian promptly in all cases of suspension. Parent(s)/guardian(s) must be notified in writing of all suspensions. The county superintendent of schools or designee must be notified and preferably in writing of the time and conditions pertaining to the suspension.
- 30.5.3 A student that is suspended from school may not participate in any school-sponsored activities, and is not permitted on school grounds during the period of suspension.
- 30.5.4 A student may not be suspended from school solely for not attending class.
- 30.5 An out-of-school suspension of more than ten (ten) days requires a formal hearing before the county board of education. Procedures the school and county must follow when dealing with suspensions of more than ten (10) days are outlined in West Virginia Code [§§18A-5-1 and 18A-5-1a](#) and include:
- 30.6.1 Parent(s)/guardian(s) must be informed in writing of the charges against their child, including a summary of the evidence upon which the charges are based.
- 30.6.2 Upon the student's/parent/guardian's request, a formal hearing must be scheduled before the county board of education.
- 30.6.3 Students are entitled to be represented or advised during the proceedings by a person or persons of their choosing, including legal counsel.
- 30.6.4 Students are entitled to be given reasonable time to prepare for the hearing.
- 30.7 Expulsion: The county superintendent, upon recommendation by the principal, may recommend that a county board of education expel a student from school if the student's conduct is judged to be detrimental to the progress and general conduct of the school. In all cases involving expulsion, the student is entitled to formal due process procedures if the county board of education agrees to act upon recommendations to expel a student from school. These procedures are outlined in West Virginia Code [§18A-5-1 and §18A-5-1a](#).
- 30.8 West Virginia Code [§18A-5-1 and §18A-5-1a](#) requires mandatory out-of-school suspension by the principal and mandatory expulsion for a period of not less than twelve (12) consecutive months by the county board of education for: possession of a deadly weapon, battery of a school employee, or sale of a narcotic drug. Procedures that must be followed when dealing with an expulsion are outlined in Policy 8400.P
- 30.8.1 The student and parent(s)/guardian(s) must be given a written statement of the specific charges against the student.

- 30.8.2 The county board of education must hold a hearing regarding the recommended expulsion.
- 30.8.3 The student and parent(s)/guardian(s) must be given a written notice of the time and place of the board of education hearing at which the expulsion will be considered. This notice must be given far enough in advance for the student to have time to prepare an adequate defense against the charges.
- 30.8.4 The student and parent(s)/guardian(s) have the right to be present at the board hearing and to defend against the charges.
- 30.8.5 The student has the right to be represented by an attorney at the hearing at their own expense.
- 30.8.6 The student has the right to present witnesses in their behalf, to hear the testimony of witnesses against them, and to question the witnesses against them.
- 30.8.7 If the board of education decides that the charges against a student do not warrant his or her expulsion from school, the student may remain in school or return to school without being subjected to punishment or harassment.
- 30.8.8 In all expulsion hearings, fact shall be found by a preponderance of the evidence.
- 30.8.9 Expulsion by the board of education is final. However, if a student or parent/guardian believes that the student was not given procedural due process, they may appeal to the State Superintendent of Schools. If the State Superintendent finds that the board's decision to expel the student was properly made, then the expulsion will stand unless overturned by a court.

31.0 Considerations for Transferring Students with Expulsions

- 31.1 Students who have been suspended or expelled from a public or private school in West Virginia or another state, currently found within the county, may not be denied enrollment in the county school system unless determined to be a “dangerous student” under the procedures set forth in [West Virginia Code §18A-5-1a](#). Superintendents may, in their discretion, determine the appropriate educational placement, including alternative education services, for these students ([Superintendent’s Interpretation of January 26, 2007](#)).

32.0 Considerations for Students with Disabilities, Students not yet Determined Eligible for Special Education and Students with 504 Plans.

- 32.1 When considering exclusion from the bus or suspension or expulsion from school or the bus for students with disabilities, students not yet determined eligible for special education (i.e. students currently engaged in the eligibility process beginning with a Student Assistance Team referral) or students with 504 plans, refer to WVBE Policy [2419 - Regulations for the Education of Students with Exceptionalities](#), Chapter 7 for specific guidelines related to protections which may be warranted for these students.

33.0 Procedures for Reporting Action on Substantiated Incidents

- 33.1 It is essential that schools accurately track incidents of inappropriate behavior in order to utilize data for school climate/culture improvement efforts and to create documentation to support actions taken to intervene in inappropriate behavior patterns. The WVEIS provides schools with the platform to report all incidents of inappropriate behavior at the classroom level and above. The primary value of this data rests at the school and county level and is necessary for development and monitoring of Policy 4373 implementation plans. Therefore, all inappropriate behaviors as described in Chapter 4, Section 2, Levels 1, 2, 3 and 4 shall be reported through:
 - 33.1.1 Teacher level documentation – shall include inappropriate behavior leading to interventions, consequences and/or referrals to the principal.
 - 33.1.2 Principal level WVEIS data entry – shall include all teacher level documentation as well as additional entry for administrative disciplinary actions. This data shall be entered into WVEIS by the principal and/or other authorized staff.
 - 33.1.3 Superintendent level WVEIS data entry – shall include county board actions resulting from expulsion hearings. This data shall be entered into WVEIS by the superintendent and/or other authorized staff.

- 33.2 Incidents of inappropriate behaviors reported into WVEIS in accordance with this policy will be used by the WVDE to comply with federal and state reporting requirements. In order to assure accuracy of data, all districts shall verify their data monthly.

Chapter 6

34.0 PROCEDURES FOR TAKING ACTION ON SUBSTANTIATED INAPPROPRIATE BEHAVIORS

- 34.1 It is the intent of the WVBE for schools to be pro-active and preventive in their approach to student behavior. It is also the Board's intent that inappropriate behavior be addressed with meaningful interventions and consequences that strive to improve future behavior. Therefore, it is the Board's belief that school administrators and staff shall exhaust all available school and community resources to provide appropriate school-based intervention strategies designed to keep students in school and engaged in instruction. Out-of-school suspension strategies should be used sparingly and shall never deny a student access to instructional material and information necessary to maintain academic progress. Out-of-school suspension is not a recommended optional consequence or intervention for Level 1 behaviors; however, the determination of interventions and consequences is at the discretion of the school administrator for levels 1, 2 and 3. West Virginia Code requires that the principal shall suspend a student who commits a behavior classified as Level 4 in this policy.
- 34.2 In determining the appropriate intervention and/or consequence in response to a substantiated Level I, II, or III inappropriate behavior, the principal, superintendent and/or local board of education should consider:
- 34.2.1 the surrounding circumstances
 - 34.2.2 the nature of the behavior,
 - 34.2.3 past incidents or continuing patterns of behavior,
 - 34.2.4 the relationships between the parties involved and the context in which the alleged incidents occurred.

35.0 Appeals Procedures

- 35.1 If someone believes that Barbour County Schools has violated the procedural rights set forth in this policy, they may avail themselves of the appeal procedures outlined in BCS Policy 9200- Barbour County Appeals Process for Citizens. However, this policy does not address personal complaints against a school employee. The procedures set forth in Policy 9200 are not deemed to be a precondition to seeking relief in some other forum.

SEARCH AND SEIZURE POLICY

- 1.0 SCOPE:** This policy establishes the parameters for school officials to conduct searches and, if certain conditions are met, seize property.
- 2.0 PURPOSE:** The Board of Education recognizes the importance of keeping students safe and yet protect the privacy of students as to their person and their belongings, which may not be violated by unreasonable search and seizure, and directs that no student be searched in an unreasonable manner or without reasonable suspicion.
- 3.0 IMPLEMENTATION:**
 - 3.1 The Barbour County Board of Education acknowledges the need for in-school storage of student possessions and shall provide storage places, including desks and lockers, for that purpose. Such spaces remain the property of the Board and, in accordance with law, may be the subject of random search. Where locks are provided for such places, students may lock them against incursion by other students, but in no such places shall students have such an expectation of privacy as to prevent examination by a school official.
 - 3.2 School authorities are charged with the responsibility of safeguarding the safety and well-being of the students in their care. In the discharge of that responsibility, school authorities may search the person or property, including vehicles located on school property, of a student, with or without the student's consent, whenever they reasonably suspect that the search is required to discover evidence of a violation of law or of school rules. The extent of the search will be governed by the seriousness of the alleged infraction and the student's age.
 - 3.3 This authorization to search shall also apply to all situations in which the student is under the jurisdiction of Barbour County Schools.
 - 3.4 Administrators are permitted to conduct a random search of any student's locker and its contents at any time, providing notice has been posted in writing in the student handbook.
 - 3.5 Search of a student's person or intimate personal belongings shall be conducted by a person of the student's gender, in the presence of another staff member of the same gender.
 - 3.6 Administrators are authorized to arrange for the use of a breath-test instrument for the purpose of determining if a student has consumed an alcoholic beverage. It is not necessary for the test to accurately determine blood-alcohol level, since the Board has established a zero tolerance for alcohol use.
 - 3.7 The Board also authorizes the use of canines, trained in detecting the presence of drugs or devices, when the principal has reasonable suspicion that illegal drugs or devices may be present in a school. This means of detection shall be used only to determine the presence of drugs in locker areas and other places on school property where such substances could be concealed. Canine detection must be conducted in collaboration with law enforcement authorities or with organizations certified in canine detection and is not to be used to search individual students unless a warrant has been obtained prior to the search.

SEARCH AND SEIZURE POLICY

IMPLEMENTATION (continued) -

- 3.8 Except as provided below, a request for the search of a student or a student's possessions will be directed to the principal who shall seek the freely offered consent of the student to the inspection. Whenever possible, a search will be conducted by the principal in the presence of the student and a staff member other than the principal. A search prompted by the reasonable belief that health and safety are immediately threatened will be conducted with as much speed and dispatch as may be required to protect persons and property.

- 3.9 The principal shall be responsible for the prompt recording in writing of each student search, including the reasons for the search; information received that established the need for the search and the name of informant, if any; the persons present when the search was conducted; any substances or objects found; and the disposition made of them. The principal shall be responsible for the custody, control, and disposition of any illegal or dangerous substance or object taken from a student.

- 3.10 The Superintendent shall prepare administrative guidelines to implement this policy.

COMMUNICABLE DISEASE CONTROL

General.

1.1. Scope. - The legislative rule requires establishment of county policies related to communicable disease control.

Purpose.

2.1. Good health and safety are essential to student learning. The education and monitoring of communicable diseases during the school year is necessary to keep students healthy and learning. The knowledge of standard/universal precautions, transmission, prevention and treatment of communicable diseases will enhance health education, prevention and equality for all.

2.2. The objective of this policy is to allow for procedures to be in place for detection of potential communicable diseases, inclusion and exclusion, standard/universal precautions and enhancement of knowledge to ensure preventative measures occur for students and school personnel. This policy will assist in developing a working relationship with school personnel, parents/guardians, the students' medical home and the local health department while decreasing duplication of health services offered by the school and the medical home and/or the community serving the students.

Application.

3.1. Barbour County Schools shall develop or amend communicable disease policies to reflect understanding of disease transmission in the school setting and to reflect understanding of student/staff rights to attend school or remain employed. The goal of the policy is to protect individual students, staff members and the school population in general.

3.2. The potential for unnecessary exclusion from the school setting is cause for concern. This problem makes it necessary for Barbour County Schools to develop a policy that is protective of the educational process and the health and safety rights of students and staff.

3.3. The Barbour County Schools will work cooperatively with the county health department to enforce and adhere to the W. Va. Code §§18A-5-1, 16-3-4, 16-3D-1, 16-3-5, 16-3C-1 through 16-3C-9, 18-2-5, 18-5-9, 18-5-22, and 18-5-34 for prevention, control and containment of communicable disease in schools.

Definitions.

4.1. "Airborne Pathogens" are defined as the transmission of infectious agents through either airborne droplet nuclei (small-particle residue [five µm or smaller in size] of evaporated

droplets that may remain suspended in the air for long periods of time) or dust particles containing infectious agents. These pathogens include but are not limited to tuberculosis (TB), rubella (measles) and varicella (chickenpox).

4.2. “Airborne Precautions” are not normally utilized in the school setting. It is defined as the isolation of an airborne pathogen to reduce the risk of airborne transmission of infectious agents. Airborne precautions entail wearing a respiratory protection mask (N95 respirator) when entering the room of a student receiving home/hospital instruction with known or suspected disease transmitted via airborne droplet nuclei, student placement in private hospital room with negative air pressure and placing a mask on the student for hospital transporting.

4.3. “American Academy of Pediatrics” also known as the AAP, is defined as a national organization of pediatricians, founded in 1930, committed to the attainment of optimal physical, mental, and social health and well-being for all infants, children, adolescents, and young adults.

4.4. “Blood Borne Pathogens” means pathogenic microorganisms that are present in human blood and can cause disease in humans. These pathogens include, but are not limited to, human immunodeficiency virus (HIV), acquired immunodeficiency syndrome (AIDS), hepatitis B virus (HBV) and hepatitis C virus (HCV).

4.5. “Casual Contact” means day-to-day interaction between individuals and others in the home, at school or in the work place. It does not include intimate contact, such as sexual or drug use interactions, and it implies closer contact than chance passing in the hallway or sharing a lunch table.

4.6. “Centers for Disease Control and Prevention” also known as CDC, is defined as one of the thirteen major operating components of the United States Department of Health and Human Services (USDHHS), which is the principal agency in the United States government for protecting the health and safety of all Americans and for providing essential human services, especially for those people who are least able to help themselves. CDC remains at the forefront of public health efforts to prevent and control infectious and chronic diseases, injuries, workplace hazards, disabilities and environmental health threats.

4.7. “Communicable Disease” means a disease that may be transmitted directly or indirectly from one individual to another.

4.8. “Direct Contact” means a disease that is spread through the exposure of blood and/or body fluids to mucous membranes, open skin wounds, semen or intravenous transfusion. HIV/AIDS is spread by direct blood transmission into the blood stream of another and by semen or vaginal fluid contact. Hepatitis A can be spread by direct or indirect contact with feces while Hepatitis B and C can be spread by direct contact with semen and blood. These diseases do not pose a risk in school if body fluids such as blood and feces are handled using standard/universal precautions.

4.9. “Droplet Contact” means contact of the conjunctivae or the mucous membranes of the nose or mouth of a susceptible person with large-particle droplets (larger than five μm in size) containing microorganisms generated from a person who has a clinical disease or who is a carrier

of the microorganism. Droplets are generated from the source person primarily during coughing, sneezing, or talking and during the performance of certain procedures such as suctioning. Transmission via large-particle droplets requires close contact between source and recipient persons, because droplets do not remain suspended in the air and generally travel only short distances, usually three feet or less, through the air. These pathogens include, but are not limited to, bacterial infections, such as Pertussis (whooping cough), streptococcal (group A) pharyngitis, pneumonia or scarlet fever, Diphtheria (pharyngeal), Haemophilus influenzae type b and Neisseria meningitis disease, including meningitis, pneumonia and sepsis. Serious viral infections spread by droplet contact include but are not limited to adenovirus, influenza (flu), mumps and rubella (German measles).

4.10. “Droplet Precautions” is defined as droplet pathogen isolation utilized around individuals known or suspected to be infected with microorganisms transmitted by droplets (large-particle droplets [larger than five μm in size] that can be generated by the person during coughing, sneezing, talking, or the performance of procedures). Droplet precautions entail being in the a private environment, like the student’s home, wearing a mask while within three feet of the individual infected and utilizing standard/universal precautions. Because droplets do not remain suspended in the air, special air handling and ventilation are not required to prevent droplet transmission. Masks may be worn to protect the health of a student who is immunocompromised.

4.11. “Health or Safety Emergency Situation” is determined on a case-by-case basis, and is defined as a specific situation that presents imminent danger or threat to students or other members of the community, or requires an immediate need for information in order to avert or diffuse serious threats to the safety or health of a student or other individuals. Any release of confidential medical information must be narrowly tailored considering the immediacy and magnitude of the emergency and must be made only to parties who can address the specific emergency in question. This exception is temporally limited to the period of the emergency and generally does not allow a blanket release of personally identifiable information from a student's education records to comply with general requirements under state law. Certainly an outbreak of diseases such as measles, rubella, mumps, and polio not only pose threat of permanent disability or death for the individual, but have historically presented themselves as epidemic in nature. Thus, disclosure of personally identifiable information from students' education records to state health officials for an outbreak of a communicable disease would generally be permitted under Family Educational Rights and Privacy Act’s (FERPA) health or safety emergency provisions.

4.12. “Immunocompromised” is defined as reduced immune response due to immunosuppressive drugs, radiation, disease or malnutrition.

4.13. “Legitimate Educational Reason” is defined as school officials who have been determined to have genuine concern related to the student’s educational achievement and performance allowing access and review pertinent educational records including medical and health information. A record of disclosure must be maintained and include: (1) the parties who have requested the information from the education records, and (2) the legitimate interests the parties had in requesting or obtaining the information.

4.14. “Occupational Safety and Health Administration (OSHA)” is defined as a division of the United States Department of Labor that provides standards and guidelines for the health and safety of America’s workers by setting and enforcing standards; providing training, outreach, and education; establishing partnerships; and encouraging continual improvement in workplace safety and health.

4.15. “School Nurse” is defined as a registered professional nurse, licensed by the West Virginia Board of Examiners for Registered Professional Nurses (W. Va. Code §30-7-1, et seq.), who has completed a West Virginia Department of Education approved program as defined in 126CSR114 West Virginia Board of Education Policy 5100, Approval of Educational Personnel Preparation Programs and meets the requirements for certification contained in 126CSR136 West Virginia Board of Education Policy 5202, Minimum Requirements for the Licensure of Professional/Paraprofessional Personnel and Advanced Salary Classification. The school nurse must be employed by the county board of education or as specified in W. Va. Code §18-5-22.

4.16. “Standard/Universal Precautions” is a body substance isolation approach to infection control. Standard Precautions apply to 1) blood; 2) all body fluids, secretions, and excretions, except sweat, regardless of whether or not they contain visible blood; 3) non-intact skin; and 4) mucous membranes. According to the concept of standard/universal precautions, all human blood and all other human body fluids are treated as if known to be infectious for HIV, HBV, and other bloodborne pathogens. There are three types of transmission: contact, airborne and droplet.

4.17. “West Virginia Department of Health and Human Resources (WVDHHR)” is the lead public health agency in West Virginia working to help shape the environments within which people and communities can be safe and healthy.

4.18. “West Virginia Education Information System (WVEIS)” is a comprehensive, uniform, integrated, on-line management information system (MIS) for schools and county school systems (districts). The system began implementation in 1991 with all schools and districts currently participating. The system provides for doing the business of the schools and districts in areas such as student demographics, special programs participation, grades, schedules, attendance, payroll, accounts payable, warehousing, student health records, immunizations, etc. Districts submit to the West Virginia Department of Education data from WVEIS required for state and federal reporting.

Disease Prevention Measures.

5.1. Barbour County Schools incorporated hand washing, as defined and outlined in The Basic and Specialized Health Care Procedures Manual for West Virginia Public Schools that accompanies 126CSR25A, West Virginia Board of Education Policy 2422.7, Standards For Basic and Specialized Health Care Procedures, into the county board of education communicable disease policy. It is best practice to wash the hands with soap and clean running water for twenty seconds. However, if soap and clean water are not available, use an alcohol-based product to clean the hands. Alcohol-based hand rubs significantly reduce the number of germs on skin and are fast acting. Good hand hygiene is the single most effective procedure to prevent the spread of communicable disease in the school setting. An allowance for hand washing should be

incorporated into the daily routine of all students in West Virginia public schools, especially before eating, after blowing the nose, coughing, or sneezing, after going to the bathroom and as deemed necessary by the school.

5.2. Students must be in compliance with the required immunization schedule as set forth by the WVDHHR State Health Officer. The WVDHHR State Health Officer, or his/her designee (local health officer) shall make the final determination in cases in which an authorized medical practitioner's written medical exemption is challenged by school personnel as inappropriate or invalid. The immunization record shall be entered and reviewed annually into the West Virginia Education Information System (WVEIS).

5.2.1. All children entering pre-kindergarten (Pre-k), kindergarten and a West Virginia public school for the first time must have immunizations and show proof upon enrollment as defined by W.Va. Code §16-3-4. All Pre-k students shall also meet requirements in 126CSR28 West Virginia Board of Education Policy 2525, West Virginia's Universal Access to a Quality Early Education System.

5.2.2. It is strongly recommended that students entering grades six and nine receive adolescent immunizations as defined by the United States Department of Health and Human Services (USDHHS), Centers for Disease Control and Prevention (CDC) and WVDHHR State Health Officer. The immunization record for each student in grades six and nine shall be entered into the West Virginia Education Information System (WVEIS) in order to ensure that updated immunization information is readily available to health officials in the event of a communicable disease outbreak that presents an imminent danger to students or other members of the community.

5.3. Instruction on the principle modes by which communicable diseases, including, but not limited to, human immunodeficiency virus (HIV)/acquired immunodeficiency syndrome (AIDS) are prevented, spread and transmitted shall be taught to students as outlined in 126CSR44E West Virginia Board of Education Policy 2520.5, Health Content Standards and Objectives. An opportunity shall be afforded to the parent or guardian of a child subject to instruction in the prevention, transmission and spread of HIV/AIDS and other sexually transmitted diseases to examine the course curriculum requirements and materials to be used in such instruction. The parent or guardian may exempt such child from participation in such instruction by giving notice to that effect in writing to the school principal as set forth in W. Va. Code §18-2-9.

5.4. An educational inservice on the prevention, transmission and treatment of current communicable diseases shall include, but not limited to, human immunodeficiency virus (HIV) and acquired immune deficiency syndrome (AIDS), shall be provided to all school personnel every two years by Barbour County Schools, as specified in W. Va. Code §18-2-9 and §18- 5-15d.

Disease Control Measures.

6.1. Distinctions will be made related to diseases that are communicable in the school setting versus those known not to be spread by casual contact e.g. AIDS, Hepatitis B, Hepatitis C and other like diseases.

6.2. Each reported case of disease known not to be spread by casual contact will be validated by a designated individual such as a school nurse (W. Va. §18A-5-1 and W. Va. §18-5-22).

6.3. The administrator or school nurse shall exclude from the school any pupil or pupils known to have or suspected of having any infectious disease known to be spread by casual contact and is considered to be a health threat to the school population. The superintendent has the authority to exclude a staff member from school when reliable evidence or information from a qualified source confirms him/her of having a potential communicable disease that is known to be spread by any form of casual contact and is considered a health threat to the school population. Such a student or staff member shall be excluded in accordance with guidelines of American Academy of Pediatrics and WVDHHR unless his/her physician approves school attendance and the condition is no longer considered contagious. All reportable communicable diseases will be referred to the county health department, without disclosure of personally identifiable information, as set forth in West Virginia Bureau for Public Health Legislative Rule 64CSR7, Reportable Diseases, Events and Conditions. The county health department is able to provide reportable communicable disease guidance or go to <http://www.wvdhhr.org/idep/#Disease%20%20Reporting>.

6.4. Mandatory screening for communicable diseases that are known not to be spread by casual contact is not warranted as a condition for school entry or for employment or continued employment, nor is it legal based on W. Va. Code §16-3C-1. All screenings performed in the public school setting should be age appropriate deemed effective and necessary through evidence-based and scientific researched-based practice utilizing standard procedures and with the Protection of Pupil Rights Amendment (PPRA), 20 U.S.C. §1232h. W. Va. Code §18-5-22 allows Barbour County Schools to provide proper medical and dental inspections for all students attending school and gives authority to take any other necessary actions to protect students from infectious diseases.

6.5. Irrespective of the disease presence, standard/universal precautions shall be used and adequate sanitation facilities will be available for handling blood or body fluids within the school setting or school buses. Blood and body fluids from any person in the school setting shall be treated with standard/universal precautions; no exception shall be made when handling blood and body fluids. School personnel will be trained in standard/universal precautions as set forth by the Occupational Safety and Health Administration recommendations and guidelines at <http://www.osha.gov/>.

Confidentiality.

7.1. All persons privileged with any medical information that pertains to students or staff members shall be required to treat all proceedings, discussions and documents as confidential information. Before any medical information is shared with anyone in the school setting a “legitimate educational reason” or “health or safety emergency situation” must exist, all other releases of confidential medical and health information shall be released only with the consent of the parent/guardian, student if over 18, employee or their representative as outlined in 126CSR94, West Virginia Board of Education Policy 4350, Procedures for the Collection,

Maintenance and Disclosure of Student Data, Family Educational Rights and Privacy Act of 1988 and Family Educational Rights and Privacy: Final Regulations. Part II, 34 CFR Part 99.

- 7.2. Information from health records is part of the educational record and should be shared with the child's parents/guardians and pass freely among the school and medical home/health care provider to enhance student health and prevent duplication of services, only after permission is obtained from the student's parent/guardian.

Severability.

8.1. If any provision of this rule or the application thereof to any person or circumstance is held invalid, such invalidity shall not affect other provisions or applications of this rule.

MEDICATION ADMINISTRATION

General.

1.1. Scope. – This legislative rule establishes standards for administration of all medication in the West Virginia public school system.

Purpose.

2.1. Good health and safety are essential to student learning. The administration of medication to students during the school day should be discouraged unless absolutely necessary for the student's health. Administration of medication during the school day is essential to allow some students to attend school. This policy establishes the standards that must be followed when any medication is required to be administered during attendance at school or school related events and to provide for emergency medication administration, when necessary.

2.2. An objective of this medication administration policy is to promote individual responsibility. This can be achieved by educating students and their families.

Application.

3.1. These regulations apply to school nurses, administrators, other authorized school employees, contracted school nurses, and contracted licensed health care providers (as specified in W.Va. Code '18-5-22a) administering medication to students in the West Virginia public school system.

DATE: July, 2014

RE: Information on the locations and the availability of asbestos management plans.

On October 22, 1986, former President Reagan signed into law the Asbestos Hazard Emergency Response Act (AHERA). It required the Environmental Protection Agency (EPA) to issue regulations requiring all private and public elementary and secondary schools to be inspected for asbestos. The act also required the school system to take action in the event that any asbestos containing material was determined to be a possible health hazard, and to develop a management plan for each school (which would be publicly available) and to contain detailed results of an asbestos inspection and any record of actions taken by the school with respect to asbestos.

On October 30, 1987, the EPA issued the final regulations and rules as required by law. These are known as 40CFR Part 763, Asbestos-Containing Materials in Schools: Final Rule and Notice, or the AHERA Rules.

This notice is to inform you that in compliance with regulation 40 CFR Part 763.84 © a copy of the Asbestos Management Plan for Barbour County Schools is available for inspection. To inspect this document you should contact the principal of your school or myself. Copies will be available at each school or the board of education office in Philippi.

In addition to the foregoing, where asbestos is present, six month periodic surveillance's of the asbestos containing materials will be conducted in the months of January and July. Further, if any asbestos response actions (i.e. Removal, repair, enclosure, encapsulation, or operations and maintenance) take place, as well as reinspections, in any of our schools, notices will be posted of these activities.

If you have any questions regarding this notice, please call me at my office at 457-3030 extension 127. Thank you for your time and consideration.

There is NO asbestos containing materials exist in any Barbour County School. Surveillance is conducted on a regular basis to guarantee that this status is maintained.

PROCEDURAL SAFEGUARDS
AVAILABLE TO PARENTS
AND
STUDENTS WITH EXCEPTIONALITIES

Revised February 1, 2013

West Virginia Department of Education

FOREWORD

The West Virginia Department of Education is dedicated to ensuring students become engaged, productive citizens of our state, nation and world. To achieve this goal, students have an opportunity to learn 21st century skills through innovative instruction designed to meet their needs. When a student's individual needs require significant changes in educational services from those the student otherwise would receive, the parent and student have special protections, or procedural safeguards, under state and federal law to ensure parents are informed participants in the decision-making process.

To facilitate informed parent involvement, this document explains the rights of parents, and students to whom rights have transferred, in the special education process. For situations in which the parent and school district disagree on important matters related to the student's education, it describes the processes available for resolving disputes

James B. Phares, Ed.D.
State Superintendent of Schools

PROCEDURAL SAFEGUARDS AT A GLANCE

The following is a summary of the procedural safeguards, that is, parent and student rights under the special education laws and regulations, which are discussed in full in this document. The full explanation includes all procedural safeguards available under the Individuals with Disabilities Education Act implementing regulations, 34 Code of Federal Regulations (CFR) §300.148 (unilateral placement in private school at public expense), §§300.151 through 300.153 (state complaint procedures), §300.300 (consent), §§300.502 through 300.503, §§300.505 through 300.518, and §§300.530 through 300.536 (procedural safeguards in Subpart E of Part B regulations) and §§300.610 through 300.625 (confidentiality of information provisions in Subpart F). Please refer to the section indicated for complete information.

Parent Notice and Consent – Page 4

A parent or adult student (student age 18 or older to whom rights have transferred) has the right to be informed of actions and for some actions to give consent before the school district considers or makes changes to the student's education based on special needs. The school district must give the parent **prior written notice**, information in writing, before it takes action to identify, test or place the student in special education for the first time and before it makes changes to that special education and related services or placement. When the parent has requested a change, and the district refuses, the parent also must be informed in writing of the basis of the action. Parents have certain **consent rights**. The school district must get written parental consent before first evaluating a student and before providing special education services for the first time to a student. After the student is placed in special education, consent will be requested before reevaluations. Parents also have the right to revoke (withdraw) consent.

Independent Educational Evaluations – Page 8

A parent who disagrees with an evaluation completed by the school district has the right to have the student evaluated by someone who does not work for the school district. If the evaluation meets certain conditions, the school district must pay for it, unless the district proves in a due process hearing its evaluation was appropriate.

Confidentiality (Privacy) of Education Records – Page 10

Parents (and adult students) have **access rights** to review education records about the student kept by the school district and the right to expect that those records will not be open to anyone except certain people who need the information for reasons related to the student's education. Parents must give written **consent** before records may be released, except in certain circumstances. If a parent believes the student's records are incorrect or

violate privacy, an **amendment of the record** may be requested. When the records are no longer needed for the student's education, the parent (or adult student) has the right to request **destruction of the records**.

Dispute Resolution – Page 14

When a concern arises about a student's education, parents are encouraged to discuss it with teachers, the principal and the district special education director. Many issues may be resolved through informal conferences or IEP team meetings. When these steps do not resolve the issue, a parent may consider a **state complaint, mediation or a due process hearing**.

Disciplinary Actions for Students with Disabilities – Page 27

School personnel may remove a student with a disability from class or school for a violation of the student code of conduct used for all students for ten days in a school year. When the removal is for more than ten days in a school year, special rules for functional behavior assessment, behavior plans and continued services apply. If the removal is for more than ten days in a row or otherwise is a change of placement, an Individualized Education Program (IEP) team must decide whether the behavior was caused by the student's disability (**manifestation determination**). A parent may file an **appeal** if he or she disagrees with the district's manifestation determination or change of placement decision.

Unilateral Parental Placement of Students with Disabilities in Private Schools – Page 33

Special conditions apply when a due process hearing is filed to resolve a dispute between a parent and the school district regarding payment for private school services.

PROCEDURAL SAFEGUARDS AVAILABLE TO PARENTS AND STUDENTS

The Individuals with Disabilities Education Act of 2004 (IDEA), the federal law concerning the education of students with disabilities, and West Virginia Board of Education Policy 2419: *Regulations for the Education of Students with Exceptionalities* provide procedural safeguards to ensure parent participation in the special education process and to ensure the student's right to a free, appropriate public education (FAPE). In addition, Policy 4350: *Regulations for the Collection, Maintenance and Disclosure of Student Data* protects confidentiality of student information. At age eighteen, all the following rights given to parents transfer to the student. The student will receive any notices sent to parents and may exercise these rights, unless a court has appointed a legal guardian to represent the educational interests of the student. Parents also continue to receive all required notices. Procedural safeguards in IDEA may be found in Part B at 34 Code of Federal Regulations (C.F.R) §§300.500 through 300.536.

Parent Notice and Consent

Prior written notice

The school district must give the parent written notice (provide certain information in writing), whenever it:

1. Proposes to initiate or to change the identification, evaluation or educational placement of a student, or the provision of a free, appropriate public education (FAPE); **or**
2. Refuses to initiate or to change the identification, evaluation or educational placement of a student, or the provision of FAPE.

The written notice must:

1. Describe the action the school district proposes or refuses to take;
2. Explain why the school district is proposing or refusing to take the action;
3. Describe each evaluation procedure, assessment, record or report the school district used in deciding to propose or refuse the action;
4. Include a statement that parents have protections under the procedural safeguards provisions of the IDEA;
5. Tell how to obtain a description of the procedural safeguards if the action the school district is proposing or refusing is not an initial referral for evaluation;
6. Include resources for parents to contact for help in understanding the IDEA;
7. Describe any other choices the student's Individualized Education Program (IEP) Team considered and the reasons why those choices were rejected; **and**
8. Provide a description of other reasons why the school district proposed or refused the action.

Notice in understandable language

The notice must be:

1. Written in language understandable to the general public; **and**
2. Provided in the parent's native language or other mode of communication, unless it is clearly not feasible to do so.

If the native language or other mode of communication is not a written language, the school district must take steps to ensure that:

1. The notice is translated orally or by other means to the parent in the native language or other mode of communication;
2. The parent understands the content of the notice; **and**
3. Written evidence that 1 and 2 have been met is maintained.

Native language, when used with an individual who has limited English proficiency, means the following:

1. The language normally used by that person, or, in the case of a student, the language normally used by the student's parents;
2. In all direct contact with a student (including evaluation of the student), the language normally used by the student in the home or learning environment.

For a person with deafness or blindness, or for a person with no written language, the method of communication is what the person normally uses (such as sign language, Braille or oral communication).

If the school district offers parents the choice of receiving documents by electronic mail (e-mail,) parents may choose to receive the following by e-mail:

1. Prior written notice;
2. Procedural safeguards notice; **and**
3. Notices related to a due process complaint.

Definition of consent

Consent means the parent:

1. Has been fully informed in his or her native language or other method of communication (such as sign language, Braille or oral communication) of all information about the action for which consent is given;
2. Understands and agrees in writing to that action, and the consent describes that action and lists the records (if any) that will be released and to whom; **and**
3. Understands the consent is voluntary and may be withdrawn at any time.

If the parent wishes to revoke (cancel) consent after the student has begun receiving special education and related services, the parent must do so in writing. Withdrawal of consent does not negate (undo) an action that occurred after the parent gave consent and before it was withdrawn. In addition, the school district is not required to amend (change) the

student's education records to remove any references that the student received special education and related services after withdrawal of consent.

Consent for initial evaluation

Before the school district conducts an initial evaluation of a student to determine eligibility under IDEA to receive special education and related services, it must provide the parent prior written notice of the proposed action and obtain parent consent.

The school district must make reasonable efforts to obtain informed consent for an initial evaluation to decide whether a student has an exceptionality. Parent consent for initial evaluation does not mean the parent has given consent for the school district to start providing special education and related services to the student.

Refusal to consent to one service or activity related to the initial evaluation may not be used as a basis for denying the parent or the student any other service, benefit or activity, unless IDEA, Part B requires the school district to do so.

If the student is enrolled in public school, or parents are seeking to enroll the student in a public school, and consent has been refused or the parents have not responded to a request for consent for an initial evaluation, the school district may, but is not required to, seek to conduct an initial evaluation through the special education mediation or due process hearing procedures. The school district will not violate its obligations to locate, identify and evaluate the student if it does not pursue an evaluation in these circumstances.

Special rules for initial evaluation of wards of the state

If a student is a ward of the state and is not living with the parent, the school district does not need consent from the parent for an initial evaluation to determine if the student is a student with an exceptionality if:

1. Despite reasonable efforts to do so, the school district cannot find the student's parent;
2. The rights of the parents have been terminated in accordance with state law; **or**
3. A judge has assigned the right to make educational decisions and to consent for an initial evaluation to an individual other than the parent.

Ward of the State, as used in the IDEA, means a child who, as determined by the state where the child lives, is:

1. A foster child;
2. Considered a ward of the state under state law; **or**
3. In the custody of a public child welfare agency.

Ward of the State does not include a foster child who has a foster parent who meets the definition of a parent as used in IDEA.

Parental consent for services

The school district must get the parent's informed consent before providing special education and related services to the student for the first time. The school district must make reasonable efforts to get this informed consent.

If the parent does not respond to a request to provide such consent, if consent is refused or if the parent later revokes (cancels) consent in writing, the school district cannot use the procedural safeguards (i.e., mediation, due process complaint, resolution meeting or an impartial due process hearing) to obtain agreement or a ruling that the special education and related services may be provided without consent.

When the school district does not provide special education and related services because the parent refused to give consent for the student to receive special education and related services for the first time, did not respond to a request to provide such consent or revoked (cancelled) consent in writing, the district:

1. Is not in violation of the requirement to make a free, appropriate public education (FAPE) available to the student for its failure to provide those services; **and**
2. Is not required to have an IEP Team meeting or develop an IEP for the student.

If the parent revokes (cancels) consent in writing at any point after the student is first provided special education and related services, then the school district may not continue to provide such services, but must provide the parent prior written notice, as described under the heading **Prior written notice**, before discontinuing the services.

Parental consent for reevaluations

The school district must get informed parental consent before it reevaluates a student, unless the school district can demonstrate that:

1. It took reasonable steps to get consent for reevaluation; and
2. The parent did not respond.

If the parent refuses consent for the reevaluation, the school district may, but is not required to, pursue the reevaluation by using the mediation or due process hearing procedures to seek to override the parent's refusal to consent to the reevaluation. As with initial evaluations, the school district does not violate its obligations under the IDEA if it does not pursue the reevaluation in this manner.

Documentation of reasonable efforts to obtain parental consent

The school district must keep records of reasonable efforts to obtain parental consent for initial evaluations, to provide special education and related services for the first time, to reevaluate and to locate parents of wards of the state for initial evaluations. The documentation must include a record of the school district's attempts in these areas, such as:

1. Detailed records of telephone calls made or attempted and the results of those calls;
2. Copies of correspondence sent to the parents and any responses received; and
3. Detailed records of visits made to the parent's home or place of employment and the results of those visits.

Other consent requirements

Parental consent is not required before the school district may:

1. Review existing data as part of a student's evaluation or a reevaluation;
2. Give a test or other evaluation that is given to all students unless, before that test or evaluation, consent is required from parents of all students;
3. Conduct evaluations, tests, procedures or instruments that are identified on an IEP as a measure for determining progress toward IEP goals; or
4. Conduct a screening of a student by a teacher or specialist to determine appropriate instructional strategies for curriculum implementation.

If the student is enrolled in a private school at parent expense, or if the student is home schooled, and the parent does not consent to the student's initial evaluation, or to reevaluation, or does not respond to a request for consent, the school district cannot use its consent override procedures (i.e., mediation, or an impartial due process hearing) and is not required to consider the student eligible to receive equitable services (services made available to parentally-placed private school students with disabilities).

Independent Educational Evaluations

A parent has the right to get an independent educational evaluation (IEE) of the student if he or she disagrees with the evaluation conducted by the school district. If a parent requests an independent educational evaluation, the school district must provide information about where to obtain an IEE and about the school district's criteria that apply to independent educational evaluations.

Definitions

Independent educational evaluation means an evaluation conducted by a qualified examiner who is not employed by the school district responsible for the student's education.

Public expense means the school district either pays for the full cost of the evaluation or ensures the evaluation is otherwise provided at no cost to parents, consistent with the provisions of the IDEA, which allow each state to use whatever state, local, federal and private sources of support are available in the state to meet the requirements of the IDEA.

Parent right to evaluation at public expense

The parent who disagrees with a school district's evaluation has the right to an independent educational evaluation of the student at public expense, subject to the following conditions:

1. If the parent requests an independent educational evaluation of the student at public expense, the school district must, without unnecessary delay, either:
 - (a) Request a due process hearing to show its evaluation is appropriate; or
 - (b) Provide an independent educational evaluation at public expense, unless the school district demonstrates in a hearing that the independent educational evaluation obtained by the parent did not meet the school district's criteria.
2. If the school district requests a hearing and the final decision is that the school district's evaluation is appropriate, the parent still has the right to an independent educational evaluation, but not at public expense.
3. If a parent requests an independent educational evaluation of the student, the school district may ask why the parent objects to the school district's evaluation. However, the school district may not require an explanation and may not unreasonably delay either providing the independent educational evaluation at public expense or filing a due process complaint to defend the school district's evaluation.

The parent is entitled to only one independent educational evaluation at public expense each time the school district conducts an evaluation of the student with which the parent disagrees.

Parent-initiated evaluations

If a parent obtains an independent educational evaluation at public expense or shares with the school district an evaluation obtained at private expense:

1. The school district must consider the results of the evaluation, if it meets the school district's criteria for independent educational evaluations, in any decision made with respect to the provision of a free appropriate public education to the student; and
2. The parent or the school district may present the evaluation as evidence at a due process hearing regarding the student.

Requests for evaluations by a due process hearing officer

If a due process hearing officer requests an independent educational evaluation of the student as part of a due process hearing, the cost of the evaluation must be at public expense.

School district criteria

If an independent educational evaluation is at public expense, the criteria under which the evaluation is obtained, including the location of the evaluation and the qualifications of the examiner, must be the same as the criteria the school district uses when it initiates

an evaluation (to the extent those criteria are consistent with the parent’s right to an independent educational evaluation). Except for the criteria described above, a school district may not impose conditions or timelines related to obtaining an independent educational evaluation at public expense.

Confidentiality of Information

Definitions

As used under the heading **Confidentiality of Information**:

Destruction means physical destruction or removal of personal identifiers from information so the information is no longer personally identifiable.

Education records means those records that are directly related to a student and are collected, maintained or disclosed by an educational agency or institution or by a party acting for the educational agency or institution. This term is further defined in 34 CFR Part 99 (the regulations implementing the Family Educational Rights and Privacy Act of 1974, 20 U.S.C. 1232g (FERPA) and Policy 4350.

Personally identifiable means information that has:

- (a) The student’s name, the name of the student’s parent, or the name of another family member;
- (b) The student’s address;
- (c) A personal identifier, such as the student’s Social Security Number or student number; **or**
- (d) A list of personal characteristics or other information that would make it possible to identify the student.

The rules for confidentiality apply to any “participating agency”, that is, any school district, agency or institution that collects, maintains or uses personally identifiable information, or from which information is obtained, under IDEA, Part B. This includes the West Virginia Department of Education (WVDE), school districts and other agencies under the general supervision of the West Virginia Board of Education. Because this document focuses on the parent’s involvement with the local school district, “school district” is used rather than the broader term, “participating agency”.

Notice to parents

The WVDE must give notice that is adequate to fully inform parents about confidentiality of personally identifiable information, including:

1. A description of the extent to which the notice is given in the native languages of the various population groups in the state;
2. A description of the students on whom personally identifiable information is maintained, the types of information sought, the methods the state intends to

use in gathering the information (including the sources from whom information is gathered) and the uses to be made of the information;

3. A summary of the policies and procedures participating agencies must follow regarding storage, disclosure to third parties, retention and destruction of personally identifiable information; **and**
4. A description of all of the rights of parents and students regarding this information, including the rights under the Family Educational Rights and Privacy Act (FERPA) and its implementing regulations in 34 CFR Part 99.

Before any major activity to identify, locate and evaluate students in need of special education and related services, (also known as “child find”) the notice must be published or announced in newspapers or other media, or both, with circulation adequate to notify parents throughout the state of the activities.

Access Rights

The school district must permit the parent (or adult student to whom rights have transferred) to inspect and review any education records relating to the student that are collected, maintained or used by the school district under the IDEA, Part B. The school district must comply with a parent’s request to inspect and review a student’s education records without unnecessary delay and before any meeting regarding an IEP or any impartial due process hearing (including a resolution meeting or a hearing regarding discipline), and in no case more than 45 calendar days after the parent made the request.

The right to inspect and review education records includes:

1. The right to a response from the school district to reasonable requests for explanations and interpretations of the records;
2. The right to request the school district provide copies of the records if parents cannot effectively inspect and review the records unless they receive those copies; **and**
3. The right to have a representative inspect and review the records.

The school district may presume a parent has authority to inspect and review records relating to his or her child unless advised the parent does not have the authority under applicable state law governing such matters as guardianship, separation and divorce.

Record of Access

Each school district must keep a record of parties obtaining access to education records collected, maintained or used under Part B of IDEA (except access by parents and authorized employees of the district), including the name of the party, the date access was given and the purpose for which the party is authorized to use the records.

Records on more than one student

If any education record includes information on more than one student, the parent has the right to inspect and review only the information relating to his or her child or to be informed of that specific information.

List of types and locations of information

On request, the school district must provide parents with a list of the types and locations of education records collected, maintained or used by the agency.

Fees

The school district may charge a fee for copies of records made for a parent, if the fee does not effectively prevent the parent from exercising the right to inspect and review those records. A school district may not charge a fee to search for or to retrieve information from education records under Part B of IDEA.

Amendment of records at parent's request

If a parent believes information in the education records regarding his or her child collected, maintained or used under the IDEA is inaccurate, misleading or violates the privacy or other rights of the student, the parent may request the school district to change the information. The school district must decide whether to change the information in accordance with the request within a reasonable period of time of receipt of the request. If the school district refuses to change the information as requested, it must inform the parent of the refusal and of the right to a hearing.

Opportunity for a hearing and results of a hearing

The school district must, on request, provide the parent an opportunity for a hearing to challenge information in a student's education records to ensure it is not inaccurate, misleading or otherwise in violation of the privacy or other rights of the student. A hearing to challenge information in education records must be conducted according to the procedures for such hearings under the Family Educational Rights and Privacy Act (FERPA) and Policy 4350.

If, as a result of the hearing, the school district decides the information is inaccurate, misleading or otherwise in violation of the privacy or other rights of the student, it must change the information and inform the parent in writing. If, as a result of the hearing, the school district decides the information is not inaccurate, misleading or otherwise in violation of the privacy or other rights of the student, it must inform the parent of the right to place in the records it maintains on the student a statement commenting on the information or providing any reasons the parent disagrees with the decision of the school district.

The parent's explanation must:

1. Be maintained by the school district as part of the student's records as long as the record or contested portion is maintained by the school district; and
2. If the school district discloses the student's records or the challenged portion to any party, the explanation must also be disclosed to that party.

Consent for disclosure of personally identifiable information

Unless the information is contained in education records and the disclosure is authorized without parental consent under the Family Educational Rights and Privacy Act (FERPA), parent consent must be obtained before personally identifiable information is disclosed to parties other than officials of the student's school district who have a legitimate educational interest in the student's education, or to a school or district in which the student seeks to enroll. WVDE officials responsible for monitoring the requirements of IDEA also have access.

Parent consent, or the consent of an eligible student who has reached the age of majority under state law, must be obtained before personally identifiable information is released to officials of participating agencies providing or paying for transition services.

If the parent has enrolled the student in a private school that is not located in the same school district in which the parent resides, parent consent must be obtained before any personally identifiable information about the student is released between officials in the school district where the private school is located and officials in the school district where the parent resides.

Safeguards

Each school district must protect the confidentiality of personally identifiable information at collection, storage, disclosure and destruction stages. One official at each participating agency must assume responsibility for ensuring the confidentiality of any personally identifiable information. All persons collecting or using personally identifiable information must be trained in Policy 4350, which includes policies and procedures for confidentiality under the IDEA and the Family Educational Rights and Privacy Act (FERPA). Each school district must maintain, for public inspection, a current listing of the names and positions of those employees within the agency who may have access to personally identifiable information.

Destruction of Information

Parents (or adult students) must be informed when personally identifiable information collected, maintained or used is no longer needed to provide educational services to the student. The information must be destroyed at parent (or adult student) request. However, a permanent record of the student's name, address, phone number, grades, attendance record, classes attended, grade level completed and year completed may be maintained without time limitation.

Dispute Resolution Processes: State Complaint, Mediation and Due Process Complaint

The West Virginia Department of Education (WVDE) maintains three processes available to parents and school districts for resolving serious concerns: 1) the state special education complaint, 2) mediation and 3) the impartial due process hearing, including the opportunity for a resolution meeting. WVDE provides additional information on all three processes on its Web site and upon request.

The parent or any individual may file a **state special education complaint** alleging a violation of any IDEA, Part B requirement by the school district, the WVDE or any other public agency. The WVDE staff must resolve a state complaint in writing within 60 calendar days of receipt unless the timeline is properly extended or the parent and district use the early resolution process to resolve the issues. Only the parent or a school district may file a due process complaint, on any matter relating to a proposal or a refusal to initiate or change the identification, evaluation or educational placement of a student with an exceptionality or the provision of a free appropriate public education, or **mediation** on any matter under IDEA, Part B. **Mediation** is an informal process, voluntary for both parties, in which WVDE assigns a trained third party to meet with the parent and school officials to resolve the issue in dispute. If parties agree, a written, legally binding agreement is signed by both parties.

A **due process complaint** is a formal process in which a written complaint meeting specific legal requirements is filed with the WVDE to request a due process hearing. This is a one-tier process, in which the hearing is conducted at the state level and appeals of the decision are made in state or federal court. An impartial due process hearing officer assigned by the WVDE conducts a formal hearing with witnesses' testimony, presentation of evidence and cross examination. Parents and the district have a resolution period in which to have a meeting to attempt to resolve the issues. In addition, parties may volunteer to attempt mediation prior to the hearing. An impartial due process hearing officer must hear a due process complaint (if not resolved through a resolution meeting or through mediation) and issue a written decision within 45 calendar days after the end of the resolution period, unless the due process hearing officer grants a specific extension of the timeline at the request of the parent or the school district. Both the district and parents are bound by the decision.

State Special Education Complaint

The WVDE has written procedures for:

1. Resolving any special education complaint, including a complaint filed by an organization or individual from another state; and
2. Filing a complaint with the WVDE.

The WVDE widely distributes the state special education complaint procedures to parents and other interested individuals, including parent training and information centers, protection and advocacy agencies, independent living centers and other appropriate entities.

Remedies for denial of appropriate services

In resolving a state special education complaint in which the WVDE has found a failure to provide appropriate services, the WVDE must address:

1. The failure to provide appropriate services, including corrective action appropriate to address the needs of the student; **and**
2. Appropriate future provision of services for all students with disabilities.

Timelines

The WVDE's complaint procedures include a time limit of 60 calendar days from the date WVDE receives the complaint to:

1. Carry out an independent on-site investigation, if the WVDE determines an investigation is necessary;
2. Give the complainant the opportunity to submit additional information, either orally or in writing, about the allegations in the complaint;
3. Provide the school district (or other public agency involved) the opportunity to respond to the complaint, including, at a minimum: (a) at the option of the agency, a proposal to resolve the complaint; **and** (b) an opportunity for a parent who has filed a complaint and the agency to agree voluntarily to try early resolution and/or mediation;
4. Review all relevant information and make an independent determination as to whether the school district or other public agency is violating a requirement of Part B of the IDEA; **and**
5. Issue a written decision that addresses each allegation in the complaint with (a) findings of fact and conclusions; **and** (b) the reasons for the WVDE's final decision.

The WVDE's complaint process:

1. Permits an extension of the 60-calendar-day time limit only if: (a) exceptional circumstances exist with respect to a particular state complaint; or (b) the parent and the school district or other public agency involved voluntarily agree to extend the time to try mediation or local resolution.
2. Includes procedures for effective implementation of the WVDE's final decision, if needed, including: (a) technical assistance activities; (b) negotiations; and (c) corrective actions to achieve compliance.

State special education complaints and due process hearings

If a written state special education complaint is received that is also the subject of a due process complaint, or the complaint has multiple issues of which one or more are part of a due process complaint, the WVDE must set aside the state complaint, or any part of the complaint that is being addressed in the due process hearing, until the hearing is over. Any issue in the complaint that is not a part of the due process hearing must be resolved using the time limit and procedures described above. If an issue raised in a complaint has previously been decided in a due process hearing involving the same parties (the parent and the school district), then the due process hearing decision is binding on that issue, and the WVDE must inform the complainant that the decision is binding. A complaint alleging a school district's or other public agency's failure to implement a due process hearing decision must be resolved by the WVDE.

Filing a complaint

An organization or individual may file a signed, written state complaint under the procedures described above by sending a letter to the WVDE (address at the end of this document). The complaint must include:

1. A statement that a school district or other public agency has violated a requirement of Part B of IDEA or its regulations;
2. The facts on which the statement is based;
3. The signature and contact information for the complainant; **and**
4. If alleging violations regarding a specific student:
 - a) The name of the student and address of the residence of the student;
 - (b) The name of the school the student is attending;
 - (c) In the case of a homeless student, available contact information for the child and the name of the school the student is attending;
 - (d) A description of the nature of the problem of the student, including facts relating to the problem; and
 - (e) A proposed resolution of the problem to the extent known and available to the party filing the complaint at the time the complaint is filed.

The complaint must allege a violation that occurred not more than one year before the date the complaint is received. The party filing the complaint must forward a copy of the complaint to the school district or other public agency serving the student at the same time the party files the complaint with the WVDE.

Early resolution of state complaints

Either the parent or the school district may request early resolution of a state complaint by contacting the other party and participating in a local conference, which is voluntary for both parties. If early resolution is reached on any or all allegations in the complaint within fifteen days of being notified of the receipt of the state complaint, the school district

submits the signed Verification of Early Resolution form, and the complaint is considered resolved. Allegations not resolved will be investigated using the above procedures.

Mediation

The WVDE makes mediation available to allow parents and the school district to resolve disagreements involving any matter under the IDEA, Part B, including matters arising before the filing of a due process complaint. Mediation is available whether or not a due process hearing complaint has been filed. A parent or school district may submit a written request for mediation to the WVDE, which maintains a list of qualified mediators who know the laws and regulations relating to the provision of special education and related services. The WVDE selects mediators on a rotational basis. The WVDE is responsible for the cost of the mediation process, including meetings to encourage mediation.

Mediation:

1. Is voluntary for parents and the school district;
2. May not be used to deny or delay the parent's right to a due process hearing, or to deny any other rights under the IDEA; **and**
3. Is conducted by a qualified and impartial mediator who is trained in effective mediation techniques.

The school district may develop procedures to offer parents and school districts that choose not to use the mediation process an opportunity to meet, at a time and location convenient to the parents, with a disinterested party:

1. Who is under contract with an appropriate alternative dispute resolution entity, or a parent training and information center or community parent resource center in the state; and
2. Who would explain the benefits and encourage the use of the mediation process to the parent.

Each meeting in the mediation process must be scheduled in a timely manner and held at a place that is convenient for the parent and the school district.

If the parent and the school district resolve a dispute through mediation, both parties must enter into a legally binding agreement that states the resolution and:

1. States all discussions that happened during the mediation process will remain confidential and may not be used as evidence in any later due process hearing or court proceeding; **and**
2. Is signed by both the parent and a representative of the school district who has the authority to bind the school district to the agreement.

A written, signed mediation agreement is enforceable in any state court that has the authority under state law to hear this type of case or in a federal district court.

Discussions that happened during the mediation process must be confidential. They cannot be used as evidence in any future due process hearing or civil proceeding in any federal or state court.

Impartiality of the mediator

The mediator:

1. May not be an employee of the WVDE or the school district involved in the education or care of the student; and
2. Must not have a personal or professional interest which conflicts with the mediator's objectivity.

A person who otherwise qualifies as a mediator is not an employee of the WVDE solely because the person is paid by the WVDE to serve as a mediator.

Due Process Hearing Complaint

Filing a due process hearing

A parent or the school district may request a due process hearing on any matter relating to a proposal or a refusal to initiate or change the identification, evaluation or educational placement of a student or the provision of a FAPE. The due process complaint must allege a violation that happened not more than two years before the parent or the school district knew or should have known about the alleged action that forms the basis of the due process complaint.

This timeline does not apply if the parent could not file a due process complaint within the timeline because:

1. The school district specifically misrepresented it had resolved the issues identified in the complaint; or
2. The school district withheld information from the parent it was required to provide under the IDEA, Part B.

The WVDE will inform parents of any free or low-cost legal and other relevant services available in the area if requested, or if a due process complaint is filed. To request a hearing, the parent or the school district (or the attorney representing the parent or district) must submit a due process complaint to the other party. The hearing request must contain all of the content listed below and must be kept confidential. The party filing the complaint also must forward a copy to the WVDE.

Content of the due process complaint

The due process complaint must include:

1. The name of the student;
2. The address of the student's residence;

3. The name of the student's school;
4. If the student is a homeless child or youth, the student's contact information and the name of the student's school;
5. A description of the nature of the problem of the student relating to the proposed or refused action, including facts relating to the problem; and
6. A proposed resolution of the problem to the extent known and available to the parent or the school district at the time.

The parent or the school district may not have a due process hearing until the party requesting the hearing (or the parent's or the school district's attorney) files a due process complaint that includes this information.

Sufficiency of the due process complaint

For a due process complaint to go forward, it must be sufficient. The due process complaint request will be considered sufficient (to have met the content requirements above) unless the party receiving it (the parent or the school district) notifies the due process hearing officer and the other party in writing, within 15 calendar days of receiving the complaint, that the receiving party believes the hearing request does not meet the requirements listed above. Within 5 calendar days of receiving this notice, the due process hearing officer must decide if the due process complaint meets the requirements listed above and notify the parent and the school district in writing immediately.

Amendment of the due process complaint

The parent or the school district may make changes to the due process complaint request only if:

1. The other party approves of the changes in writing and is given the chance to resolve the due process complaint through a resolution meeting; or
2. By no later than 5 days before the due process hearing begins, the due process hearing officer grants permission for the changes.

If the complaining party makes changes to the due process complaint, the timelines for the resolution meeting (within 15 calendar days of receiving the complaint) and the time period for resolution (within 30 calendar days of receiving the complaint) start again on the date the amended complaint is filed.

School district response to a due process complaint

If the school district has not given the parent a prior written notice regarding the subject matter in the parent's due process complaint, the school district must, within 10 calendar days of receiving the due process complaint, send the parent a response that includes:

1. An explanation of why the school district proposed or refused to take the action raised in the due process complaint;
2. A description of other options the student's IEP Team considered and the reasons why those options were rejected;
3. A description of each evaluation procedure, assessment, record or report the school district used as the basis for the proposed or refused action; and
4. A description of the other factors that are relevant to the school district's proposed or refused action.

Providing the information in items 1-4 above does not prevent the school district from stating a due process complaint was insufficient.

Other party response to a due process complaint

Except as stated immediately above, the party receiving a due process request must, within 10 calendar days of receiving the hearing request, send the other party a response that specifically addresses the issues in the complaint.

WVDE forms

The WVDE has forms for filing a due process complaint and a state complaint. These forms are not required, but any form or letter used for filing a complaint must include the required information.

Placement while the due process hearing is pending

Except as provided below under the heading **Procedures When Disciplining Students with Disabilities**, once a due process complaint is sent to the other party, during the resolution period and while waiting for the decision of any impartial due process hearing or court proceeding, unless the parent and the state or the school district agree otherwise, the student must remain in his or her current educational placement.

If the due process complaint involves an application for initial admission to public school, the student, with parent consent, must be placed in the regular public school program until the completion of all such proceedings. If the due process complaint involves an application for initial services under IDEA, Part B for a child who is transitioning from being served under Part C of the IDEA to Part B of the IDEA and who is no longer eligible for Part C services because the child has turned three, the school district is not required to provide the Part C services the child has been receiving. If the child is found eligible under IDEA, Part B and the parent consents for the child to receive special education and related services for the first time, then, pending the outcome of the proceedings, the school district must provide those special education and related services that are not in dispute (those to which the parent and the school district both agree).

If the hearing officer in a due process hearing conducted by WVDE agrees with the parent that a change of placement is appropriate, that placement must be treated as the student's current educational placement where the student will remain while waiting for the decision of the impartial due process hearing or court proceeding.

Resolution meeting

Within 15 calendar days of receiving a parent's due process complaint, and before the due process hearing begins, the school district must hold a meeting with the parent and the relevant member or members of the IEP Team who have specific knowledge of the facts identified in the due process complaint. The meeting:

1. Must include a representative of the school district who has decision-making authority on behalf of the school district; and
2. May not include an attorney of the school district unless the parent brings an attorney.

The parent and the school district determine the relevant members of the IEP Team to attend the meeting.

The purpose of the meeting is for the parent to discuss the due process complaint and the facts that form the basis of the request, so the school district has the opportunity to resolve the dispute. The resolution meeting is not necessary if:

1. The parent and the school district agree in writing to waive the meeting; or
2. The parent and the school district agree to try mediation, as described under the heading Mediation.

Resolution period

If the school district has not resolved the due process complaint to the parent's satisfaction within 30 calendar days of receiving the request (the resolution period), the due process hearing may occur. The 45-calendar-day timeline for issuing a final decision begins at the end of the 30-calendar-day resolution period, unless one of the following circumstances applies.

Adjustments to the 30-calendar-day resolution period

Except where the parent and the school district have both agreed to waive the resolution process or to use mediation, a parent's failure to participate in the resolution meeting will delay the timelines for the resolution process and due process hearing until the meeting is held. If, after making reasonable efforts and documenting such efforts, the school district is not able to obtain parent participation in the resolution meeting, the school district may, at the end of the 30-calendar-day resolution period, request the due process hearing officer dismiss the due process complaint. Documentation of the district's efforts must include a record of attempts to arrange a mutually agreed upon time and place, such as:

1. Detailed records of telephone calls made or attempted and the results of those calls;

Procedural Safeguards

2. Copies of correspondence sent to the parent and any responses received; and
3. Detailed records of visits made to the home or parent's place of employment and the results of those visits.

If the school district does not hold the resolution meeting within 15 calendar days of receiving notice of the due process complaint or does not participate in the resolution meeting, the parent may ask the due process hearing officer to begin the 45-calendar-day due process hearing timeline. If the parent and the school district agree in writing to waive the resolution meeting, then the 45-calendar-day timeline for the due process hearing starts the next day.

After the start of mediation or the resolution meeting and before the end of the 30-calendar-day resolution period, if the parent and the school district agree in writing that no agreement is possible, then the 45-calendar-day timeline for the due process hearing starts the next day. If the parent and the school district agree to try mediation, at the end of the 30-calendar-day resolution period, both parties can agree in writing to continue the mediation process until an agreement is reached. However, if either the parent or the school district withdraws from the mediation process, then the 45-calendar-day timeline for the due process hearing starts the next day.

Written settlement agreement

If a resolution to the dispute is reached at the resolution meeting, the parent and the school district must enter into a legally binding agreement that is:

1. Signed by the parent and a representative of the school district who has the authority to bind the school district; **and**
2. Enforceable in any state court of competent jurisdiction (a state court that has authority to hear this type of case) or in a federal district court.

Agreement review period

If the parent and the school district enter into an agreement as a result of a resolution meeting, either party may void the agreement within 3 business days of the time both parties signed the agreement.

Impartial Due Process Hearing Officer

Whenever a due process complaint is filed, the parent or the school district involved in the dispute must have an opportunity for an impartial due process hearing, as described above and in this section, conducted by an impartial due process hearing officer. At a minimum, a due process hearing officer:

1. Must not be an employee of the WVDE or the school district that is involved in the education or care of the student. A person is not an employee of the WVDE solely because the person is paid by the WVDE to serve as a due process hearing officer;

2. Must not have a personal or professional interest that conflicts with the due process hearing officer's objectivity in the hearing;
3. Must be knowledgeable and understand the provisions of the IDEA, federal and state regulations pertaining to the IDEA and legal interpretations of the IDEA by federal and state courts; **and**
4. Must have the knowledge and ability to conduct hearings and to make and write decisions, consistent with appropriate, standard legal practice.

The WVDE keeps a list of those persons who serve as due process hearing officers and a statement of the qualifications for each one.

Subject matter of due process hearing

The party (parent or the school district) that requests the due process hearing may not raise issues at the due process hearing that were not addressed in the due process complaint, unless the other party agrees.

Hearing rights

Any party to a due process hearing (including a hearing relating to IDEA disciplinary procedures) has the right to:

1. Be accompanied and advised by a lawyer and/or persons with special knowledge or training regarding the problems of students with exceptionalities;
2. Present evidence and confront, cross-examine and require the attendance of witnesses;
3. Prohibit the introduction of any evidence at the hearing that has not been disclosed to that party at least 5 business days before the hearing;
4. Obtain a written, or, at the parent's option, electronic, word-for-word record of the hearing; **and**
5. Obtain written, or, at the parent's option, electronic findings of fact and decisions.

At least 5 business days before a due process hearing, the parent and the school district must disclose to each other all evaluations completed by that date and recommendations based on those evaluations they intend to use at the hearing. A due process hearing officer may prevent any party that does not comply with this requirement from introducing the relevant evaluation or recommendation at the hearing without the consent of the other party.

Parental rights at hearings

The parent must be given the right to:

1. Have the student present at the hearing;
2. Open the hearing to the public; **and**
3. Have the record of the hearing, the findings of fact and decisions provided at no cost.

Hearing decision

A due process hearing officer's decision on whether a student received a free, appropriate public education (FAPE) must be based on evidence and arguments directly relating to FAPE. In matters alleging a procedural violation, a due process hearing officer may find that the student did not receive FAPE only if the procedural inadequacies:

1. Interfered with the student's right to FAPE;
2. Significantly interfered with the parent's opportunity to participate in the decision-making process regarding the provision of FAPE to the student; **or**
3. Caused a deprivation of an educational benefit.

These provisions do not prevent a due process hearing officer from ordering a school district to comply with the requirements in the procedural safeguards section of the IDEA regulations (34 CFR §§300.500 through 300.536).

Separate request for a due process hearing

Nothing in the procedural safeguards section of the federal regulations under IDEA, Part B (34 CFR §§300.500 through 300.536) prevents a parent from filing a separate due process complaint on an issue separate from a due process complaint already filed.

Findings and decision to the advisory panel and general public

The WVDE, after deleting any personally identifiable information:

1. Provides the findings and decisions in the due process hearing to the West Virginia Advisory Council for the Education of Exceptional Children; **and**
2. Makes those findings and decisions available to the public.

Timelines and convenience of hearings

The WVDE ensures not later than 45 calendar days after the end of the 30-calendar-day period for resolution meetings **or**, as described under the subheading ***Adjustments to the 30-calendar-day resolution period***, not later than 45 calendar days after the end of the adjusted time period:

1. A final decision is reached in the hearing; and
2. A copy of the decision is mailed to each of the parties.

A due process hearing officer may grant specific extensions of time beyond the 45-calendar-day time period at the request of either party. Each hearing must be conducted at a time and place that is reasonably convenient to the parent and student.

Finality of the hearing decision

A decision made in a due process hearing (including a hearing relating to IDEA disciplinary procedures for students with disabilities) is final, except that any party involved in the hearing may appeal the decision by bringing a civil action in court, as described below.

Civil actions, including the time period to file

A party (the parent or the school district) who does not agree with the findings and decision in the due process hearing (including a hearing relating to IDEA disciplinary procedures for students with disabilities) has the right to bring a civil action with respect to the matter that was the subject of the due process hearing. The action may be brought in a state court of competent jurisdiction (a state court that has authority to hear this type of case) or in a federal district court without regard to the amount in dispute.

Time limitation

The party bringing the action has 90 calendar days from the date of the decision of the due process hearing officer to file a civil action.

Additional procedures

In any civil action, the court:

1. Receives the records of the administrative proceedings;
2. Hears additional evidence at the request of either party;
3. Bases its decision on the preponderance of the evidence and grants the relief the court determines to be appropriate.

Jurisdiction of district courts

The district courts of the United States have authority to rule on actions brought under Part B of the IDEA without regard to the amount in dispute.

Rule of construction

Nothing in IDEA, Part B restricts or limits the rights, procedures and remedies available under the U.S. Constitution, the Americans with Disabilities Act of 1990, Title V of the Rehabilitation Act of 1973 (Section 504) or other federal laws protecting the rights of students with disabilities, except that before the filing of a civil action under these laws seeking relief that is also available under IDEA, Part B, the due process procedures described above must be exhausted to the same extent as would be required if the party filed the action under IDEA, Part B.

This means the party may have remedies available under other laws that overlap with those available under IDEA, but in general, to obtain relief under those other laws, the available

administrative remedies under IDEA (i.e., the due process complaint; resolution process, including the resolution meeting; and impartial due process hearing procedures) must be used first, before going directly into court.

Attorneys' fees

In any action or proceeding brought under IDEA, Part B, the court, in its discretion, may award reasonable attorneys' fees as part of the costs to:

1. The parent who is the prevailing party;
2. To the WVDE or a school district as a prevailing party, to be paid by the parent's attorney, if the attorney: (a) filed a due process complaint or court case the court finds is frivolous, unreasonable, or without foundation; or (b) continued to litigate after the litigation clearly became frivolous, unreasonable, or without foundation; or
3. To the WVDE or a school district as a prevailing party, to be paid by the parent or the parent's attorney, if the request for a due process hearing or later court case was presented for any improper purpose, such as to harass, to cause unnecessary delay or to unnecessarily increase the cost of the action or proceeding.

A court awards reasonable attorneys' fees as follows:

1. Fees must be based on rates prevailing in the community in which the action or hearing arose for the kind and quality of services furnished. No bonus or multiplier may be used in calculating the fees awarded.
2. Fees may not be awarded and related costs may not be reimbursed in any action or proceeding under IDEA, Part B for services performed after a written offer of settlement to the parent if:
 - a. The offer is made within the time prescribed by Rule 68 of the Federal Rules of Civil Procedure or, in the case of a due process hearing, at any time more than 10 calendar days before the proceeding begins;
 - b. The offer is not accepted within 10 calendar days; **and**
 - c. The court finds the relief finally obtained by the parent is not more favorable than the offer of settlement. Despite these restrictions, an award of attorneys' fees and related costs may be made to the parent who prevails and was substantially justified in rejecting the settlement offer.
3. Fees may not be awarded relating to any meeting of the IEP Team, including resolution meetings, unless the meeting is held as a result of a due process decision or judicial action.
4. A resolution meeting is not considered a meeting convened as a result of an administrative hearing or court action and also is not considered an administrative hearing or court action for purposes of these attorneys' fees provisions.

The court reduces, as appropriate, the amount of the attorneys' fees awarded under IDEA, Part B, if the court finds that:

1. The parent or parent's attorney, during the course of the action or proceeding, unreasonably delayed the final resolution of the dispute;

2. The amount of the attorneys' fees otherwise authorized to be awarded unreasonably exceeds the hourly rate prevailing in the community for similar services by attorneys of reasonably similar skill, reputation and experience;
3. The time spent and legal services furnished were excessive considering the nature of the action or proceeding; **or**
4. The attorney representing the parent did not provide to the school district the appropriate information in the due process complaint.

However, the court may not reduce fees if the court finds the state or school district unreasonably delayed the final resolution of the action or proceeding or there was a violation under the procedural safeguards provisions of IDEA, Part B.

Procedures When Disciplining Students with Disabilities

Authority of school personnel

School personnel may consider any unique circumstances on a case-by-case basis when determining whether a change of placement, made in accordance with the following requirements related to discipline, is appropriate for a student with a disability who violates the student code of conduct. To the extent they also take disciplinary action for students without disabilities, school personnel may, for not more than **10 school days in a row**, remove a student with a disability who violates the student code of conduct from the current placement to an appropriate interim alternative educational setting, another setting or suspension. School personnel also may impose additional removals of the student of not more than **10 school days** in a row in that same school year for separate incidents of misconduct, as long as those removals do not constitute a change of placement. (See **Change of Placement**, below)

Once a student with a disability has been removed from his or her current placement for a total of **10 school days in the same school year**, the school district must, during any later days of removal in that school year, provide services to the extent required below under **Services**.

If the behavior that violated the student code of conduct was **not a manifestation of the student's disability** (see **Manifestation determination**, below) and the disciplinary change of placement would exceed **10 school days in a row**, school personnel may apply the disciplinary procedures to that student with a disability in the same manner and for the same duration as it would to students without disabilities, except that the school must provide services to that student. The student's IEP Team determines the interim alternative educational setting for these services.

Services

The services that must be provided to a student with a disability who has been removed from the student's current placement may be provided in an interim alternative educational setting. A school district is only required to provide services to a student with a disability who has been removed from his or her current placement for **10 school days or less** in that school year, if it provides services to a student without disabilities who has been similarly removed. Districts typically do not provide such services.

A student with a disability who is removed from the student's current placement for **more than 10 school days** must:

1. Continue to receive educational services to enable the student to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals in the student's IEP; and
2. Receive, as appropriate, a functional behavioral assessment and behavioral intervention services and modifications that are designed to address the behavior violation so it does not happen again.

After a student with a disability has been removed from his or her current placement for 10 school days in that same school year, and if the current removal is for 10 school days in a row or less and if the removal is not a change of placement (see **Change in Placement**, below), then school personnel, in consultation with at least one of the student's teachers, determine the extent to which services are needed to enable the student to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the student's IEP. If the removal is a change of placement, the student's IEP Team determines the appropriate services to meet the above requirements.

Manifestation determination

Within 10 school days of any decision to change the placement of a student with a disability because of a violation of the student code of conduct (see **Change of Placement**, below), the school district, the parent and relevant members of the IEP Team (as determined by the parent and the school district) must review all relevant information in the student's file, including the student's IEP, any teacher observations and any relevant information provided by the parent to determine:

1. If the conduct in question was caused by, or had a direct and substantial relationship to, the student's disability; **or**
2. If the conduct in question was the direct result of the school district's failure to implement the student's IEP.

If the school district, the parent and relevant members of the student's IEP Team determine either of those conditions was met, the conduct must be found to be a manifestation of the student's disability. If they determine the conduct in question was the direct result of the school district's failure to implement the IEP, the school district must take immediate action to remedy those deficiencies.

If the conduct was a manifestation of the student’s disability, the IEP Team must either:

1. Conduct a functional behavioral assessment, unless the school district had conducted a functional behavioral assessment before the behavior that resulted in the change of placement occurred, and implement a behavioral intervention plan for the student; **or**
2. If a behavioral intervention plan already has been developed, review the behavioral intervention plan, and modify it, as necessary, to address the behavior.

Except as described below under **Special circumstances**, the school district must return the student to the placement from which the student was removed, unless the parent and the district agree to a change of placement as part of the modification of the behavioral intervention plan.

Special circumstances

Whether or not the behavior was a manifestation of the student’s disability, school personnel may remove a student to an interim alternative educational setting (determined by the student’s IEP Team) for up to 45 school days, if the student:

1. Carries a weapon to school or has a weapon at school, on school premises or at a school function under the jurisdiction of the WVDE or a school district;
2. Knowingly has or uses illegal drugs or sells or solicits the sale of a controlled substance while at school, on school premises or at a school function under the jurisdiction of the WVDE or a school district; **or**
3. Has inflicted serious bodily injury upon another person while at school, on school premises or at a school function under the jurisdiction of the WVDE or a school district.

Controlled substance means a drug or other substance identified under schedules I, II, III, IV, or V in section 202(c) of the Controlled Substances Act (21 U.S.C. 812(c)).

Illegal drug means a controlled substance; but does not include a controlled substance that is legally possessed or used under the supervision of a licensed health-care professional or that is legally possessed or used under any other authority under that Act or under any other provision of Federal law.

Serious bodily injury has the meaning given the term “serious bodily injury” under paragraph (3) of subsection (h) of section 1365 of title 18, United States Code.

Weapon has the meaning given the term “dangerous weapon” under paragraph (2) of the first subsection (g) of section 930 of title 18, United States Code.

Parent Notice

On the date the school district makes the decision to make a removal that is a change of placement of the student because of a violation of the student code of conduct, the school district must notify the parents of that decision and provide the parents with this notice of procedural safeguards.

Change of placement because of disciplinary removals

A removal of a student with a disability from the student's current educational placement is a change of **placement** if:

1. The removal is for more than 10 school days in a row; **or**
2. The student has had a series of removals that constitute a pattern because:
 - a. The series of removals totals more than 10 school days in a school year;
 - b. The student's behavior is substantially (for the most part) similar to the student's behavior in previous incidents that resulted in the series of removals; **and**
 - c. Of such additional factors as the length of each removal, the total amount of time the student has been removed and the proximity of the removals to one another.

Whether a pattern of removals constitutes a change of placement is determined on a case-by-case basis by the school district and, if challenged, is subject to review through due process and judicial proceedings. The IEP Team determines the interim alternative educational setting for removals that are **changes of placement**, and removals under the subheadings **Authority of school personnel and Special circumstances**.

Appeal

The parent of a student with a disability may file a due process complaint to request a due process hearing if he or she disagrees with:

1. Any decision regarding placement made under these discipline provisions; **or**
2. The manifestation determination described above.

The school district may file a due process complaint if it believes maintaining the current placement of the student is substantially likely to result in injury to the student or to others.

Authority of an impartial due process hearing officer

An impartial due process hearing officer, who meets the requirements above under the subheading **Impartial due process hearing officer**, must conduct the due process hearing and make a decision. The due process hearing officer may:

1. Return the student with a disability to the placement from which the student was removed if the due process hearing officer determines the removal was a violation of the requirements described under the heading **Authority of school**

personnel, or that the student's behavior was a manifestation of the student's disability; **or**

2. Order a change of placement of the student with a disability to an appropriate interim alternative educational setting for not more than 45 school days if the due process hearing officer determines that maintaining the current placement of the student is substantially likely to result in injury to the student or to others.

These hearing procedures may be repeated if the school district believes returning the student to the original placement is substantially likely to result in injury to the student or to others.

Expedited due process hearing for disciplinary removal or manifestation determination

Whenever a parent or a school district files a due process complaint to request a due process hearing, a hearing must be held that meets the requirements described under the heading

Due Process Hearing Complaint, except as follows:

1. The WVDE must arrange for an expedited due process hearing, which must occur within **20** school days of the date the hearing is requested and must result in a determination within **10** school days after the hearing.
2. Unless the parents and the school district agree in writing to waive the meeting, or agree to use mediation, a resolution meeting must occur within **7** calendar days of receiving notice of the due process complaint. The hearing may proceed unless the matter has been resolved to the satisfaction of both parties within **15** calendar days of receipt of the due process complaint.

A party may appeal the decision in an expedited due process hearing by bringing civil action in a state court of competent jurisdiction or a U.S. district court.

Placement during appeals

When the parent or school district has filed a due process complaint related to disciplinary matters, the student must (unless the parent and school district agree otherwise) remain in the interim alternative educational setting pending the decision of the hearing officer, or until the expiration of the time period of removal as provided for and described under the heading Authority of School Personnel, whichever occurs first.

Protections for Students Not Yet Eligible for Special Education and Related Services

If a student has not been determined eligible for special education and related services and violates the student code of conduct, but the school district had knowledge (as determined below) before the behavior that brought about the disciplinary action occurred that the student was a student with a disability, then the student may assert any of the protections described in this notice.

Basis of knowledge for disciplinary matters

A school district must be deemed to have knowledge that a student is a student with a disability if, before the behavior that brought about the disciplinary action occurred:

1. The student's parent expressed concern in writing that the student is in need of special education and related services to supervisory or administrative personnel of the appropriate educational agency or to a teacher of the student;
2. The parent requested an evaluation related to eligibility for special education and related services under the IDEA, Part B; or
3. The student's teacher or other school district personnel expressed specific concerns about a pattern of behavior demonstrated by the student directly to the school district's director of special education or to other supervisory personnel of the school district.

No basis of knowledge

A school district would not be deemed to have such knowledge if:

1. The student's parent has not allowed an evaluation of the student or has refused special education services; or
2. The student has been evaluated and found to not be a student with a disability under the IDEA.

If before taking disciplinary measures against the student, a school district does not have knowledge that a student is a student with a disability (as described above), the student may be given the disciplinary measures that are applied to students without disabilities who engaged in the same type of behaviors. However, if a request is made for an evaluation of a student during the time period in which the student is given disciplinary measures, the evaluation must be conducted in an expedited manner (more quickly than otherwise).

Until the evaluation is completed, the student remains in the educational placement determined by school authorities, which can include suspension or expulsion. If the student is determined to be a student with a disability, taking into consideration information from the evaluation conducted by the school district and information provided by the parents, the school district must provide special education and related services in accordance with the IDEA, including the disciplinary requirements described above.

Referral to and action by law enforcement and judicial authorities

The IDEA does not:

1. Prohibit an agency from reporting a crime committed by a student with a disability to appropriate authorities; **or**
2. Prevent state law enforcement and judicial authorities from exercising their responsibilities with regard to the application of federal and state law to crimes committed by a student with a disability.

If a school district reports a crime committed by a student with a disability, the school district must ensure copies of the student's special education and disciplinary records are transmitted for consideration by the authorities to whom the agency reports the crime; **but** only to the extent permitted by the Family Educational Rights and Privacy Act (FERPA).

Unilateral Placement by Parents of Students in Private Schools at Public Expense

The IDEA does not require a school district to pay for the cost of education, including special education and related services, of a student with a disability at a private school or facility if the school district made free appropriate public education (FAPE) available and the parent chose to place the student in a private school or facility. However, the school district where the private school is located must include the student in the population whose needs are addressed under the IDEA provisions regarding students who have been placed by their parents in a private school under 34 CFR §§300.131-300.144.

Reimbursement for private school placement

If the student previously received special education and related services under the authority of a school district, and the parent chooses to enroll the student in a private preschool, elementary or secondary school without the consent of or referral by the school district, a court or a due process hearing officer may require the agency to reimburse the parent for the cost of that enrollment if the court or due process hearing officer finds the agency had not made FAPE available in a timely manner before that enrollment and that the private placement is appropriate. A due process hearing officer or court may find the placement to be appropriate, even if the placement does not meet the state standards that apply to education provided by the WVDE and school districts.

Limitation on reimbursement

The cost of reimbursement described in the paragraph above may be reduced or denied:

1. If: (a) At the most recent IEP Team meeting the parent attended prior to removing the student from the public school, the parent did not inform the IEP Team that he or she was rejecting the placement proposed by the school district to provide FAPE to the student, including stating the parent's concerns and intent to enroll the student in a private school at public expense; or (b) At least 10 business days (including any holidays that occur on a business day) before removing the student from the public school, the parent did not give written notice to the school district of that information;
2. If, before removing of the student from the public school, the school district provided the parent prior written notice of its intent to evaluate the student (including a statement of the purpose of the evaluation that was appropriate and reasonable), but the parent did not make the student available for the evaluation;
or
3. Upon a court's finding that the parent's actions were unreasonable.

However, the cost of reimbursement:

1. Must not be reduced or denied for failure to provide the notice if: (a) the school prevented the parent from providing the notice; (b) the parent had not received notice of the responsibility to provide the notice described above; or (c) compliance with the requirements above would likely result in physical harm to the student; and
2. May, in the discretion of the court or a due process hearing officer, not be reduced or denied for the parent's failure to provide the required notice if: (a) the parent is not literate or cannot write in English; or (b) compliance with the above requirement would likely result in serious emotional harm to the student.
