- 5.0 The following guidelines apply to all transfer students:
- 5.1 When class size exceeds prior to October 1<sup>st</sup> of the current school year;
- 5.1.1 the guidance provided in WV Code §18-5-18a, the last student to enroll in a class will be the first student to be administratively transferred, etc.
- 5.1.2 the guidance in 4.3.2 above, the last transfer received will be the first transfer to be revoked, etc.
- 5.2 Transfers will be processed by the date/time received. All involved parties will be invited to attend the drawing. The drawing will be held at the county board office and will be witnessed by two central office employees designated by the superintendent.
- 5.3 Students who attend school out of their attendance area must comply with the terms of the agreement of the transfer (i.e., discipline, attendance, enrollment figures, and academics). A nonresident or resident placement may be revoked due to chronic absenteeism, tardiness, behavioral infractions categorized as level three or four as defined in WVBE Policy 4373, or failure to comply with agreed-upon conditions of the transfer as established between the parents or guardians and the county school system.
- 5.4 A student who changes residence to a new attendance area during the second semester may complete the school term at the school term he/she attended before moving provided he/she complies with the contents of this policy, and the request is made by the parent or legal guardian, in writing, to the principal as soon as possible after the change in residence occurs. Students who have transferred will be required to enroll in their home school if the teacher-pupil ratio is exceeded or causes an additional financial burden upon the school system.
- 5.5 All students who reside in a particular school attendance area and desire to attend school in that attendance area but do not live with their parents or legal guardian must request and receive board permission to attend the school in that attendance area in compliance with the contents of this policy. Principals shall require notarized Acknowledgement of Responsibility signed by the parent/legal guardian and the head of the household in which the student resides. This does not apply for students 18 and older.
- 5.6 During the 9<sup>th</sup> – 12<sup>th</sup> grades, a student shall be entitled to one transfer into the public high school regardless of from where in the state the student is transferring. A student shall be entitled to transfer back to a non-public high school if said student had been enrolled in said non-public high school 365 days prior to enrollment in the 9<sup>th</sup> grade. Any student transferring under the provisions of this rule will not become eligible for extra-curricular activities as defined by the WVSSAC until completion of the school year in which said transfer occurs. Eligibility will begin with the succeeding fall sports season. Transfer must be completed prior to the first instructional day of the new school year. (WVSSAC Provision 127-2-7.2.9 governs athletic eligibility.)
- 5.7 All current, applicable rules and regulations of the WVSSAC concerning transfer and athletic eligibility will be followed.

## **OPEN ENROLLMENT FOR NONRESIDENT STUDENTS**

Non-resident students shall be permitted to enroll in a school or program of this County, provided each enrollment is in accordance with laws and regulations of the State concerning non-resident student enrollment and transfer, the provisions of this policy, and the administrative guidelines established to implement this policy. Transfers of non-resident students from one county to another do not require the approval of the County Board in which the student resides. A non-resident or resident placement may be revoked due to chronic absenteeism, tardiness, behavioral infractions categorized as level three or four as defined in WVBE Policy 4373, or failure to comply with agreed-upon conditions of the transfer as established between the parents or guardians and the county school system.

- **Out of District Enrollment for Non-resident Pre-K students:** Pre-K students may remain in their assigned placement for the duration of the school year after the first day of school.
- **Out-of-District Enrollment for Kindergarten and above** permits non-resident students (students who live outside the county where they want to attend school) to apply for enrollment in a school district that is different from the one in which they reside.

- **Application Process:** Non-resident students must apply to the receiving school district. This allows the district to evaluate whether they have the space and resources to accommodate these students.
- **Consideration of Space:** The receiving district is not required to accept non-resident students but may choose to do so based on the available space in the schools. If the school district is at capacity, they are allowed to deny enrollment to non-resident students.
- **Priority for Residents:** The code prioritizes the enrollment of resident students. If space becomes limited, non-resident students may be asked to leave in favor of residents, particularly if a resident student moves into the district and requires placement.
- **Special Provisions for Kindergarten and Above:** There are special provisions for non-resident students in kindergarten and above, allowing them to remain in their receiving school for the rest of the school year if they were enrolled after October 1st. However, if a resident student moves into the district before October 1st and there is no space available, the non-resident student who applied last may be asked to leave to make room for the resident student.

The process for enrollment applications shall be clearly publicized to parents and the general public, including dates and timelines, and shall be made available in the board's website. The board shall also establish a process for non-resident students to enroll in any school within the district on a case-by-case basis at any time during the academic year so long as all other requirements are met including that the student has not previously transferred within the same school year. This policy shall not discriminate against non-resident students based on their residential address or any potential disability status.

Enrollment policies are subject to the following criteria:

A. The County shall give enrollment preferences to:

1. Barbour County Residents who are out of zone.
2. Siblings of students already enrolled through the open enrollment policy;
3. Secondary students who have completed 10th grade and, due to family relocation, become nonresident students, but express the desire to remain in a specific school to complete their education;
4. Students who are children or legal wards of employees of the nonresident county;

B. The receiving Board may, but is **not** required to, provide an adequate means of transportation to a nonresident student's residence, subject to the following:

1. The receiving board is not required to uniformly provide transportation to nonresident students.
2. For nonresident students with an IEP that specifies transportation is necessary fulfillment of the program, the receiving county shall either:
  - a. provide transportation to and from the school the nonresident is attending and the nonresident student's residence;
  - b. provide transportation to and from an agreed-upon point on a regular transportation route within the receiving county; or
  - c. provide payment in lieu of transportation for the total miles traveled each day to and from the nonresident student is attending and the nonresident student's residence.

C. The receiving county only may deny a transfer application for the following reasons:

1. There is a lack of grade level capacity in the receiving county. Lack of grade level capacity means approval of the transfer request would result in the receiving county being required to employ additional staff or compensate a classroom teacher pursuant to WV Code 18-5-18a.
2. A nonresident student may not be granted school placement over a Barbour County resident who has submitted an out-of-zone request.
3. Lack of programs or services due to areas identified on the county board's critical need policy.
4. The commission of Level 3 or Level 4 inappropriate behavior as defined by West Virginia Board of Education Policy 4373 in the last year.

D. In the event a non-resident student fails to fill out or submit an open enrollment application correctly, the Board shall provide an explanation of the ways in which the application may be corrected and submitted for necessary approval.

### **Funding for Nonresident Students**

- A. If a nonresident student begins attending school in the receiving county after the second month of the school year, the receiving county may issue, in the following fiscal year, an invoice to the sending county for the pro rata amount the receiving county would have received under the state basic foundation program had the nonresident student been included in the receiving county's net enrollment for the prior year. The sending county shall reimburse the receiving county the amount of the invoice.

- B. If a nonresident student begins attending school in the receiving county after the second month of the school year, the receiving county may issue, in the following fiscal year, an invoice to the sending county for the pro rata amount the receiving county would have received under aid to exceptional students had the nonresident student been included in the receiving county's net enrollment for the prior year. The sending county shall reimburse the receiving county the amount of the invoice.
- C. If a nonresident pre-k student begins attending school in the receiving county after the child count of exceptional students is certified for a school year, the receiving county issue, in the following fiscal year, an invoice to the sending county for the pro rata amount the receiving county would have received under aid to exceptional students had the nonresident student been included in the receiving county's net enrollment for the prior year. The sending county shall reimburse the receiving county the amount of the invoice.

### **Transfer Application Appeals**

Any nonresident student whose transfer application is denied may file an appeal with the State Superintendent.

The State Superintendent must receive the transfer application appeal within thirty (30) days of the date the receiving county denied the transfer application.

The State Superintendent shall review the transfer application and the receiving county's denial decision and may hold a hearing if warranted.

The State Superintendent shall issue a decision on the appeal no later than five days prior to the start of a semester. If the transfer application appeal was not received in time for the State Superintendent to meet this deadline, the State Superintendent shall issue a decision as soon as possible.

A decision issued by the State Superintendent shall be final.
