

If you do not want others to see a formula:

1. On the Main Menu, click on **Format**.
2. On the drop-down list, click on **Cells**.
3. Click **Protection**.
4. Select the **Hidden** check box. This will hide the formula in the formula bar. Leave the **Locked** check box selected.
5. Click **OK**.
6. Then, protect the worksheet: On the **Tools** menu, point to **Protection**, and then click **Protect Sheet**. Type your password, click **OK**, and then type your password again.
