

## Reversing the Order of Last and First Names

This formula changes the order of a name from

Last Name, First Name Middle to

First Name Middle Last Name.

For this to work correctly, every cell entry can only contain one comma.  
Be sure to copy the formula correctly.

**=RIGHT(A1,LEN(A1)-LEN(LEFT(A1,FIND(",",A1)-1))-2)&" "&LEFT(A1,FIND(",",A1)-1)**
