

How to Rotate a Chart or make it 3-D

To make it 3-D

1. Right-click in the center of your chart.
2. Click **3-D View**.

To rotate your chart

1. In the **Elevation dialog box**, type 15.
2. In the **Rotation dialog box**, type 40.
3. Click the **Auto Scaling box** and the **Right Angle Axes box**.
4. Click **Apply**.
5. Click **OK** and be sure to save your changes.

(If the image is too blurry, click on the 3-D dialog box and click **Default**, to return your chart to the normal 3-D settings.)
