

## To change your screen resolution

A higher screen resolution reduces the size of items on your screen and increases the relative space on your desktop.

1. Click **Start**, click **Control Panel**, and then double-click **Display**.
2. Open Display in Control Panel.
3. On the **Settings** tab, under **Screen resolution**, drag the slider, and then click **Apply**.
4. When prompted to apply the settings, click **OK**. Your screen will turn black for a moment.
5. Once your screen resolution changes, you have 15 seconds to confirm the change. Click **Yes** to confirm the change; click **No** or do nothing to revert to your previous setting.
