

## To change margins around text in a text box or shape

1. Select the AutoShape.
2. Double-click the selection rectangle or the AutoShape or text box, and then click the **Text Box** tab in the Format dialog box.
3. Select the **Resize AutoShape to fit text** check box.
4. Under **Internal margin**, adjust the measurements to increase or decrease the distance between the text and the outer border of the object.
