DISCONNECT

The **NAVIGATION** buttons are used to navigate the menus.

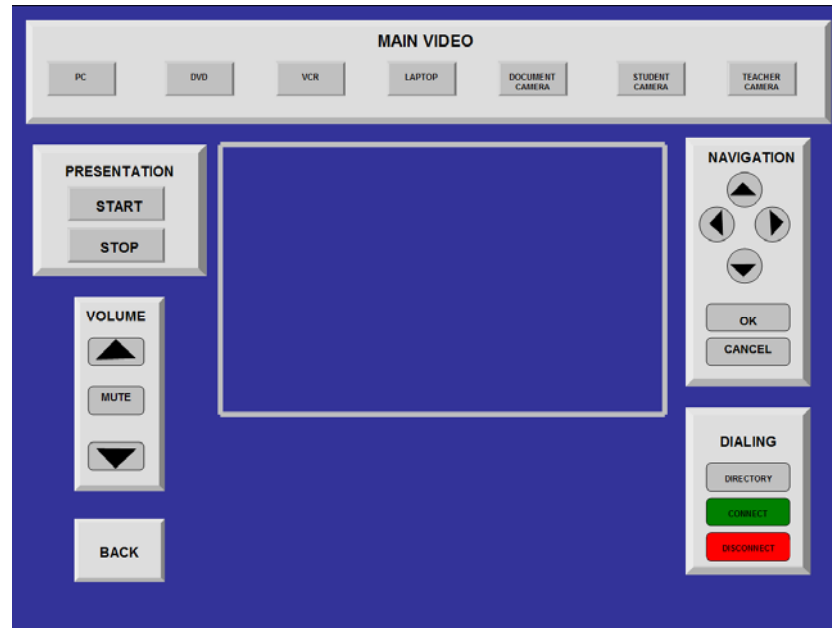

The **DIALING** buttons are used to establish calls with other sites. Touch **Directory** to see a list of the other school locations. Use the Navigation arrow buttons to select the school you desire to call. Then, touch the **Connect** button to place your call. (Touch **Disconnect** to end the call.)

The **MAIN VIDEO** buttons are used to select the picture that will be displayed on the school's plasma panel or projector. (Teacher Camera, Student Camera, Document Camera, PC, Laptop, DVD, or VCR) It will also be displayed on the Video Screen area of the Touch Panel.

VOLUME adjusts the volume heard in your classroom. The other site's audio level is not affected.

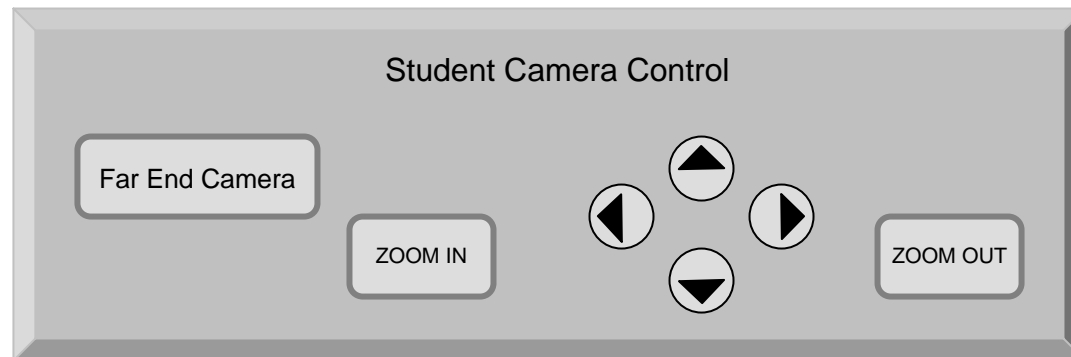

BACK button returns to the Power Control Page.

The **PRESENTATION** button permits transmission of a second high resolution video image to the projection screen at the other location. When you touch the Start button, you may select the PC or the Document Camera as the presentation source for the projector. When the Presentation function is used, the Teacher Camera will be displayed on the plasma panel. You must touch STOP before any other Main Source may be selected. Then, the system returns to a normal video call.

STUDENT CAMERA

From the **MAIN MENU**, touch **STUDENT CAMERA**.
The **FAR END CAMERA** button allows you to move
the camera at the other location.
The **arrows** allow you to move position the camera.

TEACHER CAMERA

- Teacher Camera Control permits moving the position of the camera, as well as zoom.
